Spa Filter Cleaning System

The  
Very First Spa  
and Whirlpool  
Filter Cleaning  
System

The  
Very First Spa  
and Whirlpool  
Filter Cleaning  
System

For  
practically  
all spa and  
whirlpool  
filters

**Step 1**  
Remove the dirty filter from your whirlpool, spa or hot tub and place it in the Estelle.

**Step 2**  
Put the splash proof lid on the Estelle, connect your hose to the unit and turn the tap on. This will start the filter cleaning process of your filter.

**Step 3**  
When the filter reaches the end of its first spin cycle, turn the green knob on the Estelle and the second cycle will begin. Repeat this until your filter is clean.

**Step 4**  
When the filter is looking nice and clean, the filter can be put back into the spa, whirlpool or hot tub.

- Clean your spa filter quickly
- Environmentally friendly
- Chemical free cleaning
- Easy to use and mess free
- Save money on replacement filters

## Spa Filter Cleaning System

The  
Very First Spa  
and Whirlpool  
Filter Cleaning  
System

### Easy filter cleaning

More and more people are enjoying spas, whirlpools and hot tubs. To ensure that this is an optimally pleasurable experience, it is important for the filters to be cleaned regularly. In the past this was a time consuming task but those days are over.

### Environmentally friendly

By this unique and patented spa filter cleaning system you can clean your spa, whirlpool and hot tub filters in 4 easy steps in an environmentally friendly way.

### By water pressure and without chemicals

Powered by water pressure only and without the use of chemicals your filters can be cleaned in no time and because of the unique design it can even be done inside your home! The Estelle comes with a set of adapters that makes it suitable for most of the disposable whirlpool, spa and hot tub filters.

### A must have for every spa lover!

## Spa Filter Cleaning System

The  
Very First Spa  
and Whirlpool  
Filter Cleaning  
System

MADE IN  
THE NETHERLANDS  
MADE IN

- Environmentally friendly
- Chemical free cleaning
- Water pressure driven so no electricity needed
- Clean your spa filter quickly
- Easy to use and mess free
- Long lifespan
- Suitable for practically all filters

### Optimal enjoyment

If you want to enjoy an optimum experience in your spa, whirlpool or hot tub, you need to clean your filters regularly. This is to prevent obstruction in the flow of water (which could cause problems) and cloudy water caused by polluted filters, and to ensure that chemicals added to the water work properly. Estelle allows you to clean your filters quickly and simply, with water pressure alone – without chemicals – so it's very environmentally friendly.

### Save hundreds of euros

Cleaning your filters regularly with Estelle will not only save you trouble, it will also save you tons of money, because you don't have to replace your expensive filters as often. That works out to easily hundreds of euros per year. You also use about 80% less water with Estelle than with other cleaning methods. Estelle can extend the life of your filters by cleaning them up to at least 150 times.

### A child could do it

Thanks to Estelle, you can clean the filters of your spa, whirlpool or hot tub in no time. Just put the dirty filter in the appliance, connect it to the water supply and open the tap. The filter will be completely cleaned in about 1 minute, good as new for hygienic bathing enjoyment!
