FEATURES

Semi-automatic double head saw with 400 mm saw blades GEMINI – II A is ideal for cutting aluminum, PVC and wood profiles in various angles and thickness. GEMINI – II A provides rapid and automatic positioning with electro control on X axis and moving head positioning control with linear scale. It is also provides manual positioning at any angles between -45° and $+45^{\circ}$. Safety is a topmost priority for GEMINI – II A together with the horizontal and automatic clamps along with profile support unit which improve the cutting quality.
