

GALAXY - III

Copy Router Machine with Triple Grip Slot Drilling and Water Discharge

ozmachine

Features

Used for cutting appropriate slots on plastic profiles for mounting locks, grips, hinges, latches and opening channels.

- Copy assembly matching the process
- Ability to open various channels independently of the copy assembly with profile gauges
- Pneumatic clamps
- Triple grip slot drilling system
- Ability to open water discharge channels with various angles and sizes
- Independently operating motors

Standard Equipments

- 5 mm milling cutter (2 pcs)
- Triple drill bit kit
- Profile gauge

Optional Equipments

- Special copy assembly
- Single-phase system
- 8 mm milling cutter
- Cooling system
