Naziv izdelka:	Kotliček s pokrovom 10 l Kotliček s pokrovom 20 l	
Proizvajalec:	Plamen d.o.o.	
Država porekla:	Hrvaška	
Leto izdelave:	2022.	
Dimenzije (l):	10	20
Teža (kg):	13,08	16,80
Material:	LITOŽELEZO EN-GJL 200	
Površinska zaščita:	Emajlirano z higienskim emajlom	

KOTLIČEK S POKROVOM so izdelki namenjeni za pripravo hrane v odprtem prostoru. Izdelani so iz kvalitetnega litoželeza, emajlirani z higienskim emajlom in odporni na kisline. Imajo potrjeno o kvaliteti s strani Zavoda za javno zdravstvo.

Ob kotličku dobite tudi metalni ročaj za nastavitve na stojalo kot tudi vijak in matico za dviganje pokrova.

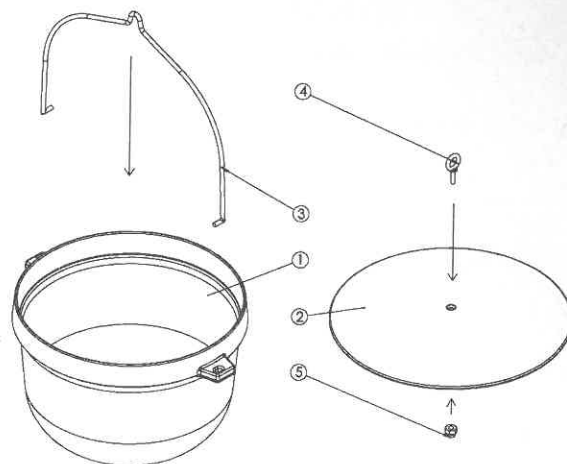

- Kotliček postavite na stabilne nosilce.
- Med ogrevanjem poskrbite se da se kotliček enakomerno in počasi ogreva in se izognite hitri nastavitvi kotlička na ogenj/vir toplote. Posebno pozornost posvečajte ogrevanju na plinskih napravah. Z enakomernim in počasnim ogrevanjem se preprečujejo možne deformacije ali celo razpoki zaradi neenakomernega ogrevanja.
- Ne dotikajte se emajlirane površine z ostrimi ali abrazivnimi predmeti, ker lahko to skrajša rok trajanja ponve/plošče.
- Pred čiščenjem ali pospravljanjem pustite kotliček, da se popolnoma ohladi. Po uporabi zadostuje, da kotliček operete z blago raztopino detergenta za posodo, izperete s čisto vodo in osušite.

SL

POZOR: Ta izdelek se zelo segreva!

PAZLJIVO: Ne uporabljajte alkohola ali bencina za prižiganje ali ponovno prižiganje!

OPOZORILO: Hranite izven dosega otrok in hišnih ljubljencev!

Product name:	Cauldron with a lid 10 l Cauldron with a lid 20 l	
Manufacturer:	Plamen d.o.o.	
Country of origin:	The Republic of Croatia	
Year of manufacture:	2022.	
Dimensions (l):	10	20
Mass (kg):	13,08	16,80
Material:	GREY CASTING EN-GJL 200	
Surface protection:	Coated with a hygienic coating	

CAULDRONS WITH LIDS represent products intended for outdoor food preparation. They are made of high quality grey casting coated with a hygienic coating, are resistant to acids and are provided with a quality certificate by the Croatian Institute of Public Health.

The cauldron is accompanied with a metal handle to be used for placing it on a tripod as well as with a screw and nut which are used to lift the lid.

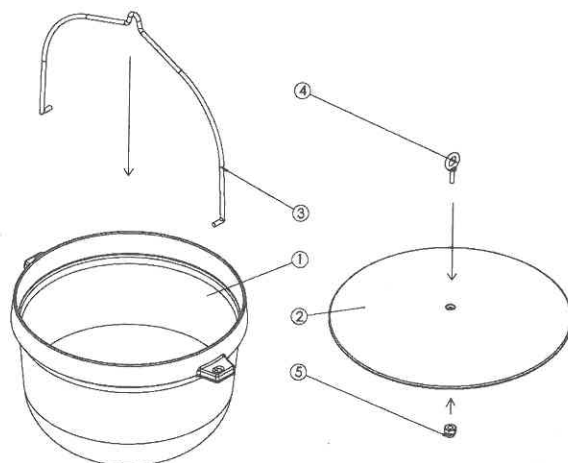

- Put the cauldron on a fixed tripod.
- When heating, pay attention to even and slow heating of the kettle, and avoid sudden placement of the kettle on fire/source of heat. Special attention should be paid when heating on gas appliances. Equal and slow heating avoids possible deformation or cracking that can occur due to uneven heating.
- Do not touch the coated surface with sharp or abrasive objects since it may reduce the shelf-life of the cauldron.
- Before the washing-up or disposal of the cauldron, let it completely cool off. After the use, it suffices to rinse the cauldron with a gently dissolved rinse agent and then wash it down with pure water and let it dry.

EN

NOTICE: This product turns extremely hot!

CAUTION: Do not use alcohol or gasoline for flaming or re-flaming!

WARNING: Keep away from children and pets!
