Company Profile

The [BCF Sp. z o.o.](#) company was established in 2008. Both the production plant and office are located near Warsaw, in the small town of Magnuszew. Since its establishing, the company has been involved in plastics processing, specializing mainly in the production of products for the office and for archiving. The company processes different types of thermoplastic materials, and BCF Sp. z o.o. deals with plastics processing in various technologies such as injection molding, casting and blow molding.

[BCF Sp. z o.o.](#) is a leading manufacturer of office supplies, in particular: punched pockets and L-shape pockets, report files, letter trays, business cards holders, desk organizers, clipboards, as well as document boxes. The company also offers a wide assortment of canisters, waste bins and other plastic articles of this nature.

The [BCF Sp. z o.o.](#) company continues the traditions of the French-origin AD Class brand of stationery products. In 2010, the BCF Sp. z o.o. company purchased the rights for the AD Class brand. The brand, established in the early 70's in France, is associated with the production of top-class office products for archiving purposes. The AD Class brand is recognized throughout Europe.

We strive to build long-term relationships with our trading partners. The BCF Sp. z o.o. company endeavors to create a partnership model of relations with its customers. Our priority is to thoroughly understand their needs and on this basis - to prepare the best product and price offer.
