Description

Compact and Convenient Dishwashing Solution

When it comes to having clean dishes, there's always room for improvement. Thanks to this portable mini dishwasher, you'll never have to wash by hand again. This handy kitchen appliance is designed to fit into the tiniest kitchen spaces or even on camping trips. Whether you're looking to avoid buying large kitchen appliances for your first home or simply want a stress-free vacation, MEDION's dishwasher has got you covered. It can be used anywhere, with or without a fixed water connection. With six different programs, it efficiently cleans up to two place settings in a short amount of time. It's also perfect for ensuring the hygiene of baby bottles, offering flexibility and an all-around clean.

Features

Key Points of Features

- **Energy consumption:** 40 kWh/100 cycles.
- **Noise level:** 58dB.

- Works with or without a water connection.
- **Eco program duration:** 02:40 (hh: mm).
- **Maximum rinse temperature:** 70°C.

User-Friendly and Convenient Operation

Operating this dishwasher is incredibly easy and user-friendly. You can easily control it by hand. An easily readable LED display provides all the important information you need at any given time. The desired cleaning mode can be conveniently selected using a control panel equipped with modern touch controls.

Even without a water connection

This compact dishwasher can be utilized in locations where there is no established water connection, such as a gazebo, camping trip, or student room. It provides convenience even without access to water. However, if a water connection is available, its usage becomes even more convenient. This handy household appliance ensures optimal flexibility.

Program Options

A selection of six cleaning programs is available for this compact kitchen assistant, allowing it to wash your dishes and cutlery with the same efficiency as larger dishwashers. To ensure maximum cleanliness, you can choose from various programs such as Eco, Express, or Glass. Additionally, there is a dedicated “Baby Care” mode for gentle and steam-free cleaning of baby bottles.

Efficient Usage

This compact dishwasher is highly economical with a water consumption of just five liters. This makes it a cost-effective option, especially when used in locations without a water connection. It is also easy to refill, making it convenient for activities like camping holidays.
