HOW TO SET THE NEW CODES?

NOTE: You can set no-repeat 4-12 digit passwords.

1. Rotate the switch to open the key box.

2. Rotate the switch again to set the codes

3. Use the screwdriver to rotate the code 180°

4. Write the passwords down or take a photo for it

5. Enter the new passwords after the passwords were set

6. If you can open it with the new password, that means password is set successfully.
