

PRODUCT INFORMATION SHEET – EU

Product name:

RGB LED Strip 3 m with Remote Control

Model: XY-5050-30

3 m RGB LED Strip

Category:

Electrical lighting equipment – LED lighting strip

Technical description

The RGB LED strip is an electrical lighting product intended exclusively for indoor use. It is designed for decorative and ambient lighting applications such as furniture, shelves, TV backlighting or interior accents. The strip emits multicolour RGB light and is controlled via an infrared remote control.

Technical specifications

- Rated power consumption: 24 kWh / 1000 h
- Strip length: 3 m
- Light colour: RGB (multicolour)
- Control: IR remote control
- Rated voltage: 230 V AC
- Energy efficiency class: F
- Intended use: indoor use only

Safety and regulatory information

The product shall be used in accordance with applicable safety and technical requirements of the European Union. Use the LED strip only in dry indoor environments. Do not expose the product to water or moisture. Do not modify or cut the product unless explicitly permitted by the manufacturer. The product is not a toy and must be kept out of reach of children.

EU regulatory compliance

The product complies with the essential requirements of applicable EU legislation, including Directive 2014/35/EU (Low Voltage Directive), Directive 2014/30/EU (EMC Directive), Directive 2011/65/EU (RoHS) and Regulation (EU) 2023/988 on general product safety (GPSR).
