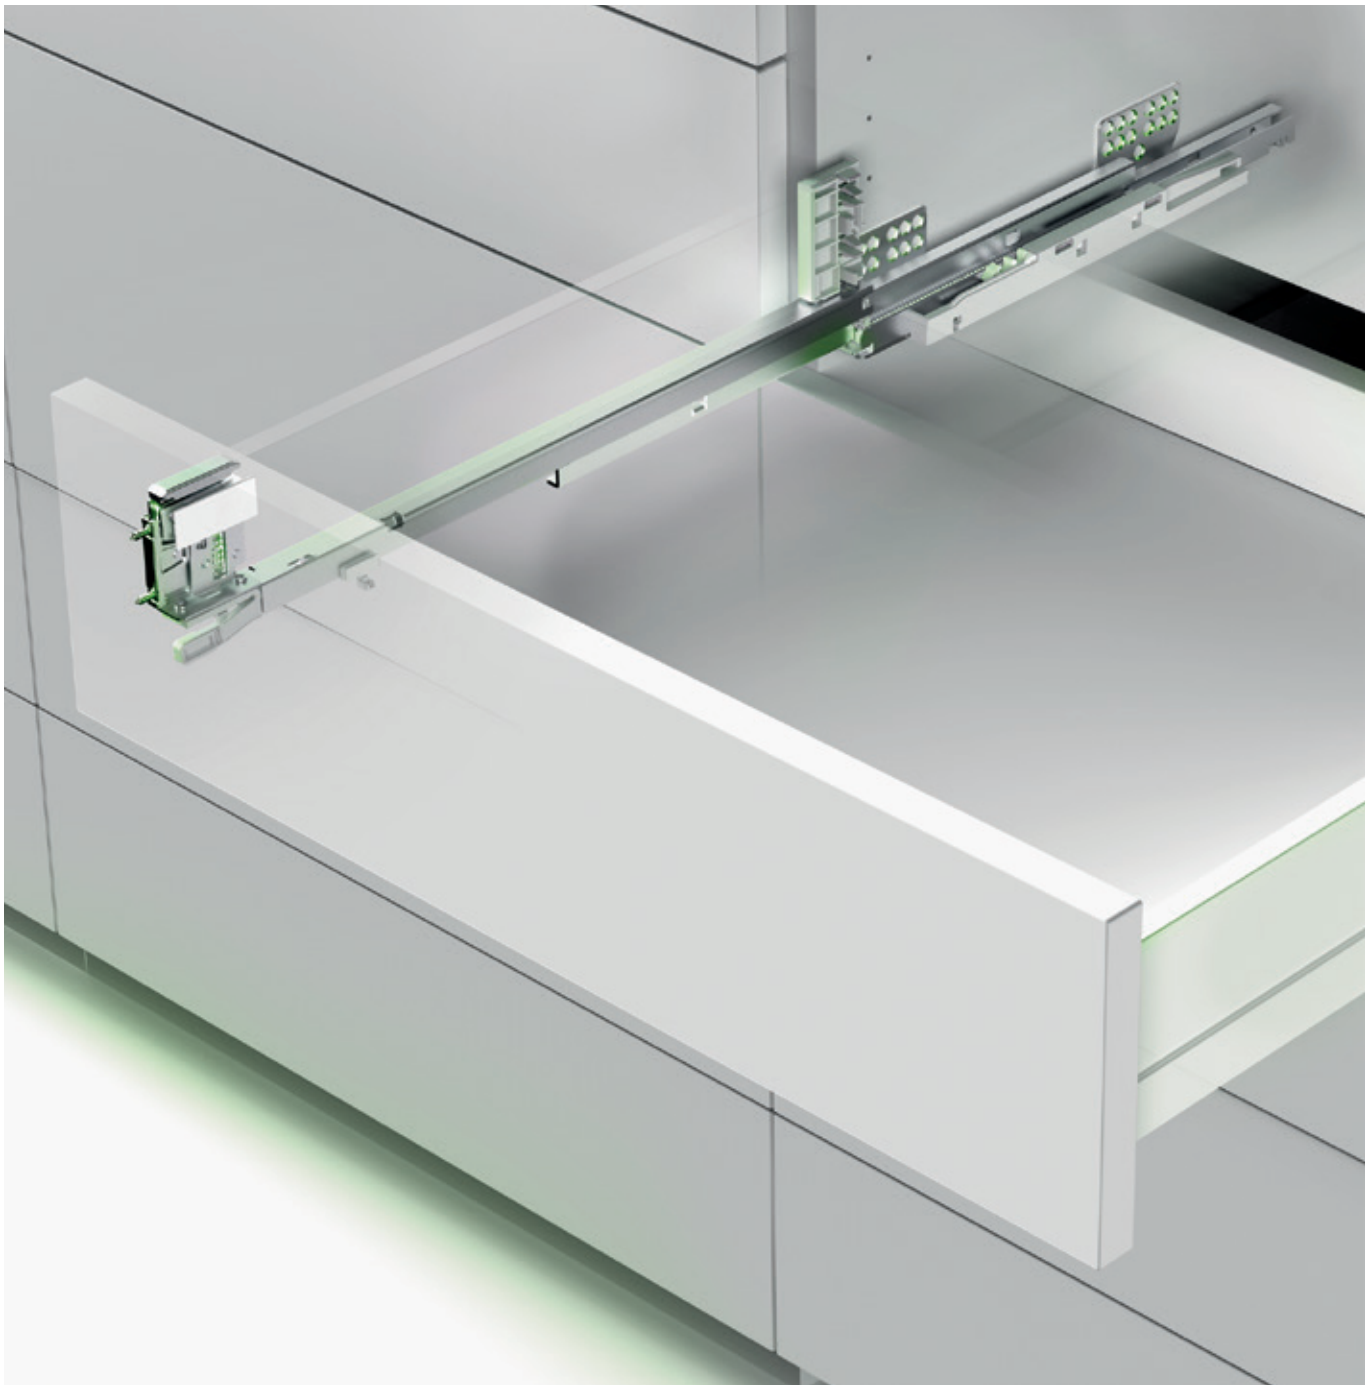
Ten²



A drawer evolution

Elegant and extra slim shape

Brilliant and trendy colours

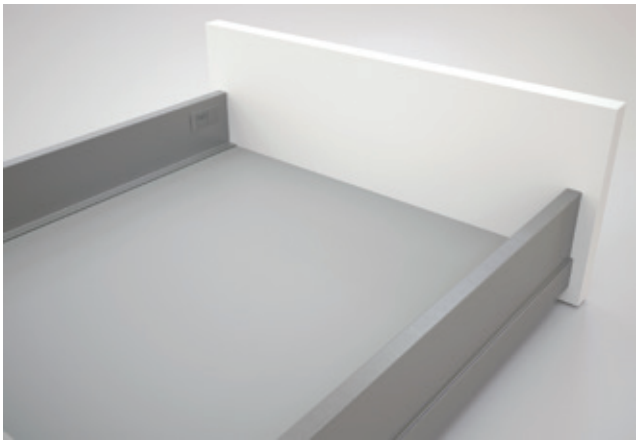
Motion at its best

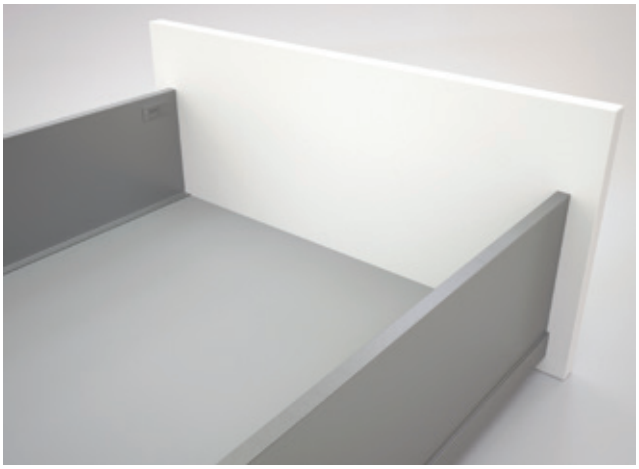
OneTouch+SlowMotion technology

Ten² is the new high quality and high performance double wall drawer technology with extra slim shape.
Ten² is a complete range covering all usual applications with clever solutions, Italian design and elegance.
Ten² stands for fulfilment of the highest criteria where every detail counts.
Ten² is a synonymous of state-of-the-art conception, use of environmental friendly materials and production solutions.

Elegant and extra slim shape

The Ten² drawer system is characterized by a very slim shape and an enriched superior design. Three different heights allow to create elegant drawer and pan drawer solutions and maximizing storage space without railing application.



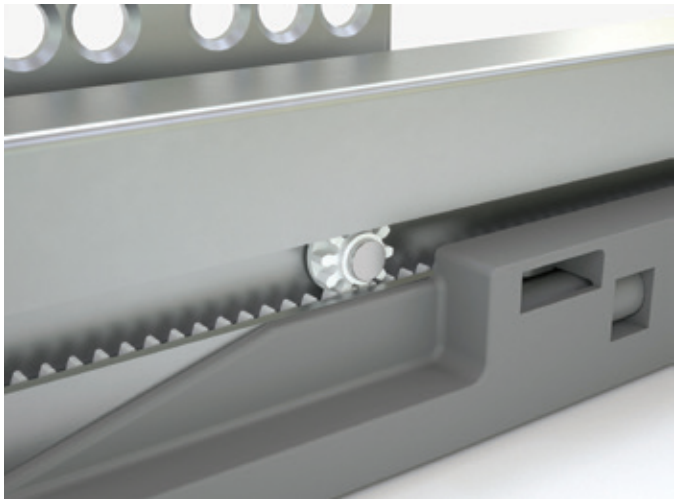


Brilliant and trendy colours

The Ten² drawer is available in a full range of colours; from standard White and Grey to innovative Storm Grey and Coffee Black to create drawers with modern look and matching perfectly with wood and current design trends. The final result is an elegant and high end furniture appeal.

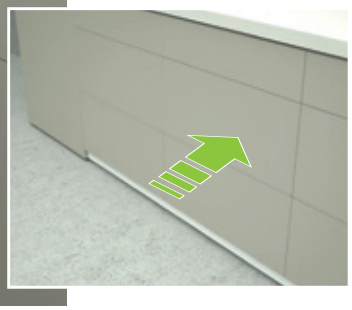
Motion at its best

Further improvements on the already tested and reliable Ten slides guarantee better perfomance according to soft sliding movement and high stabilty. The full extension sliding system with a load capacity of 45kg throughout the range, is equipped with Dual-Synchro stabilisation for noiseless and a new powerful SlowMotion damper for perfect operation and long lasting function.



OneTouch + SlowMotion technology

Never so easy to open and close a drawer with the new OneTouch+SlowMotion System. A completely hidden mechanism that ensures, with a gentle press on the front, a perfect and silent opening and closing. Depth adjustment on both sides guarantees precise front gap regulation. Easy to install, no cables or electricity required.



APPROVED QUALITY & PERFORMANCE
10/10

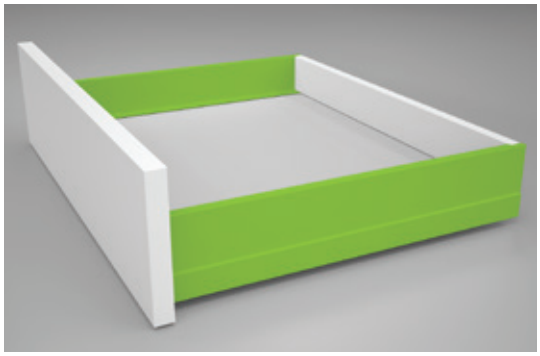
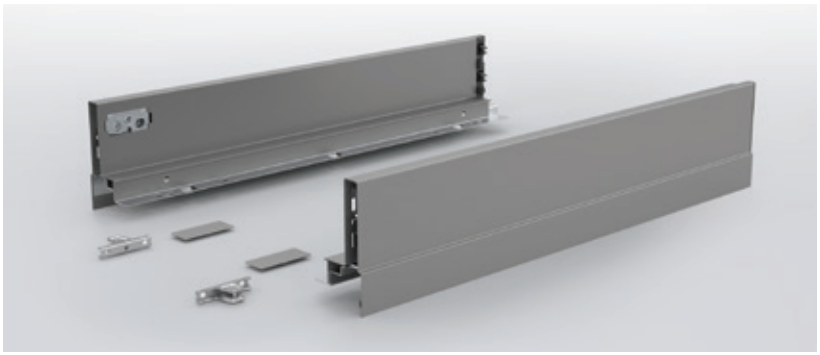
Drawer H90





Double wall steel drawer height 90mm, epoxy finish, with strong design features and state-of-the-art technology

Benefits for the industry

- Large range of depth from 270 to 550 mm
- All steel front fixing mechanism for strong and secure fixing
- Vertical and horizontal adjustment in the front fixing mechanism
- Bottom fixing via ClawFix or screws without processing on the panel
- Decorative cover cap with possibility of customisation

Benefits for the consumer

- Four metal finishes: Coffee Black and Storm Grey for high end look and perfect match for wooden and modern finishes, standard Grey and Polar White for a linear and clean look
- Optimised inner space thanks to straight outer and inner faces
- Easy to clean thanks to hygienic bottom lip and clean adjustment of every connection
- GreenSilver® technology for low carbon footprint production process and 100% recycle ability for reduced ecological impact

Full extension damped slides, zink finish, for high performance and smooth action

Benefits for the industry

- Large range of length from 270 to 550 mm
- High 45kg standard load for ease of use throughout the applications
- High side stability thanks to Dual-Synchro® rack-and-pinion for smooth action
- New generation SlowMotion® damping with long damping way for guaranteed drawer closure under adverse conditions
- Very stiff construction for low drop under load
- Slide-click fixing of drawer on the slide for easy and safe connection

Benefits for the consumer

- Very smooth action and increased glide ability thanks to rollers with special design and materials
- Adaptive SlowMotion® damping for silent and majestic closing under all load circumstances
- Long lasting life thanks to high quality material and performance design

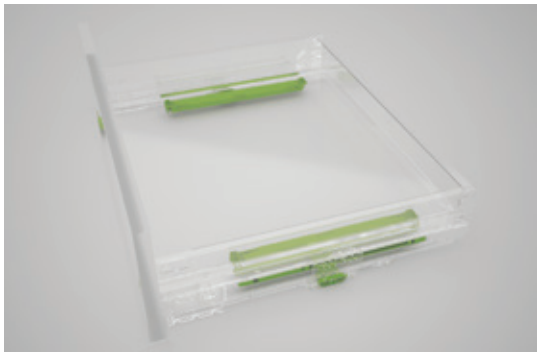
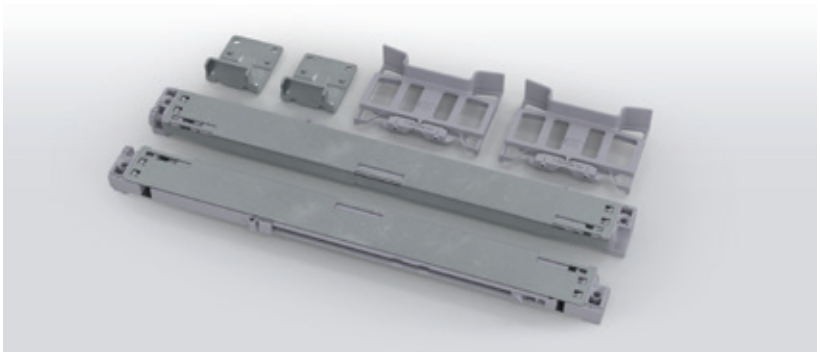
OneTouch+SlowMotion technology





Add-on device for hand-less furniture with integrated SlowMotion technology

Benefits for the industry

- Efficient and easy to install on standard Ten² drawer
- Mechanical solution: no wires or electrical connection required
- Minimum and adjustable gap between the door and the cabinet
- It works normally even if the drawer is pulled outwards
- It can be retrofitted anytime

Benefits for the consumer

- Just a light touch and the drawer opens by itself
- Smooth and silent closure without any effort
- Invisible installation under the drawer
- Suitable for all kind of hand-less furniture

Standard drawer Kit

Ten² standard individual kit for ease of distribution and ease of use

Benefits for the industry

- Each kit contains all elements necessary for the realisation of a drawer with exception of the wooden back and bottom panels
- No handling of individual components necessary
- A few kits cover the necessity of almost usual applications
- Standard drawer kits available
- Easy to sell over the counter

Benefits for the consumer

- All components necessary immediately at hand
- No necessity to stock individual components in large volumes and remain with unpaired components
- Ease of transport on site of the packed products and hassle free assembly on site
