NOTE: The color is subject to your purchase.

SAFETY INFORMATION

1. This product contains small parts. If swallowed, it will pose a choking hazard. Keep these small parts away from children !
2. Read, understand and follow your power tool manufacturer's instructions for safety. Always wear safety glasses or eye shields before assembly and commencing power tool operation. Always keep hands, face, hair, loose clothing, and body at a safe distance from spindles and cutting tools. Always keep a firm grip on tool handles when in operation. Always disconnect from the power source before adjusting power tools.

MODEL AND PARAMETERS

Parameters Model	Color	Shading effect	Width range
PB-32-B1	Brown	Full blackout	45.8-86inch
PB-32-B2	Dark gray		
PB-32-B3	Light gray		
PB-32-G1	White	Semi-shading	
PB-32-G2	Light brown		
PB-32-G3	Gray		

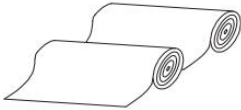

NOTE: The color is subject to your purchase.

PARTS

Please check all pieces before the installation.

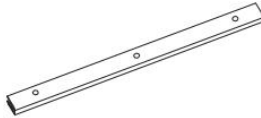

Adjustable Track x1

Panel Set x2

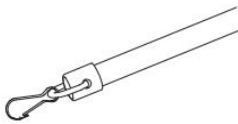

(Each roll contains 2 panels)

Bottom bar x4

Slice x4

Wand x2

INSTALL ATION

Prepare Tools:

Drill

Screw Driver

Hammer

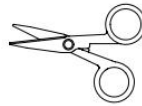

Tape Measure

Level

Pliers

Scissors

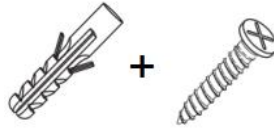

Ladder

Screw Suggestion: Please select according to your installation conditions.

Wood

Cement

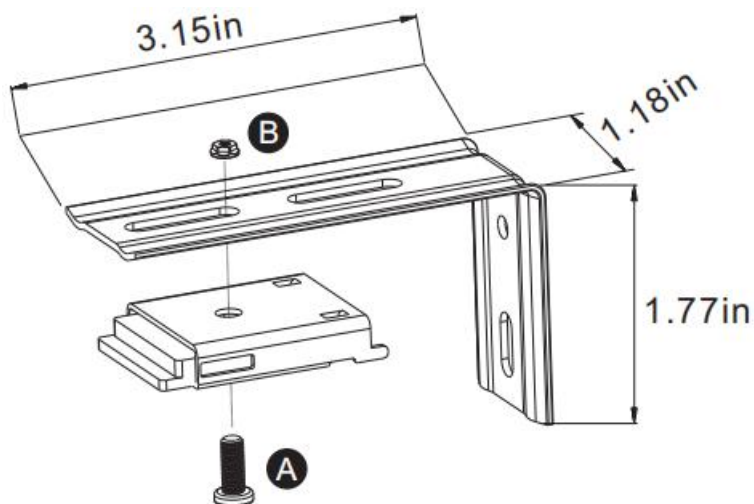

Wall Mount

Step 1-a : Pull both sides of the guide rails to the appropriate length.

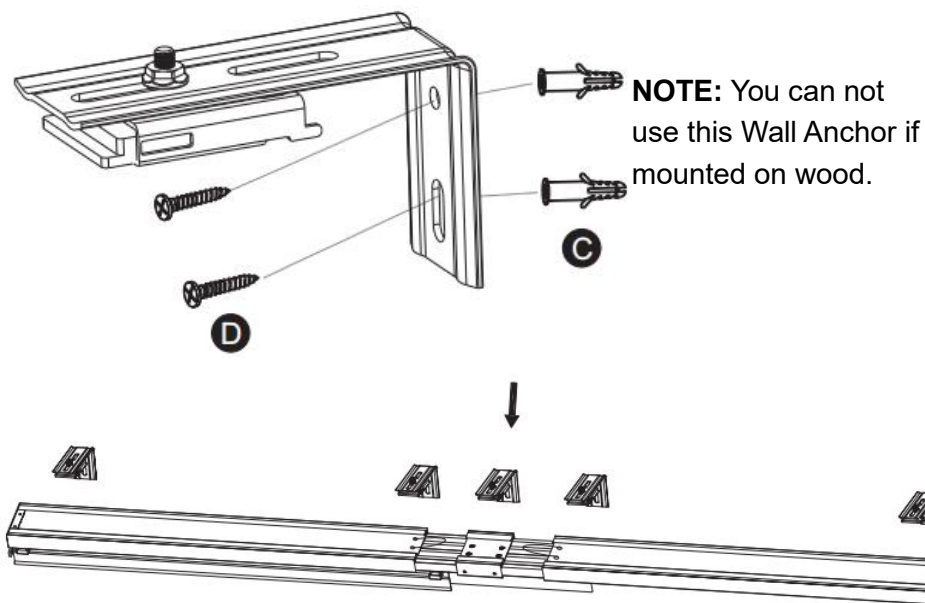

NOTE: The rope at the top of the guide rail is to prevent the two telescopic tracks from slipping out and falling, please do not cut the rope.

Step 2-a :

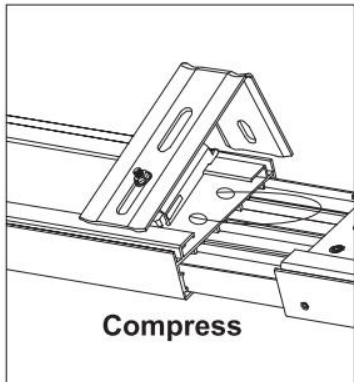

Step 3-a :

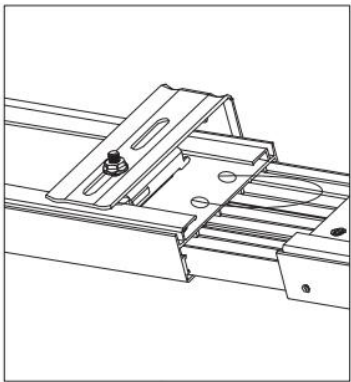

Install the brackets at the proper spacing and prepare the rails for mounting.

Install the track as shown.

a

b

Ceiling Mount

The following parts are not required for ceiling mount.

"L" Bracket x5
(For wall mount)

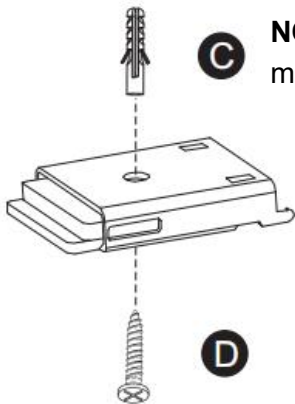

"L" Bracket
Connector Screw x5

Nut x5

Step 1-b:

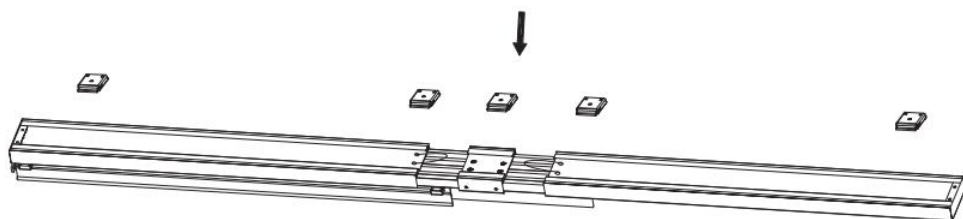

C

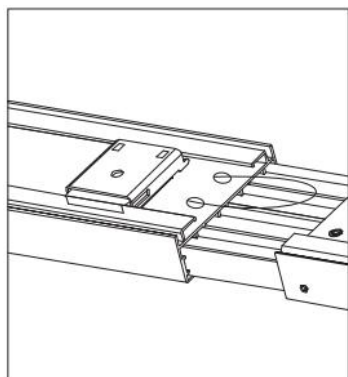

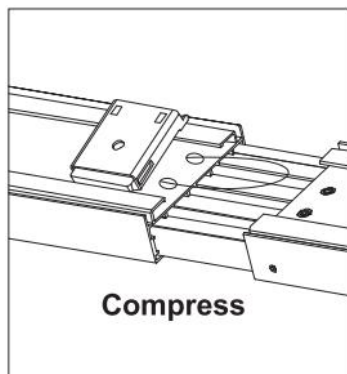

NOTE: You can not use this Wall Anchor if mounted on wood.

D

Step 2-b: Install the brackets at the proper spacing and prepare the rails for mounting.

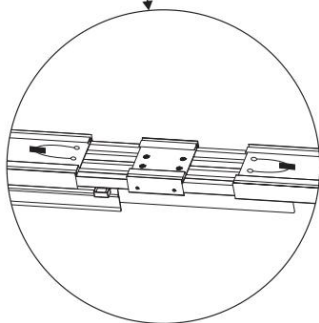

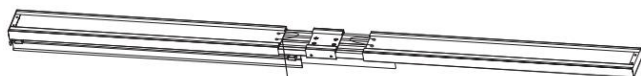

Step 3-b: Install the track as shown.

a

b

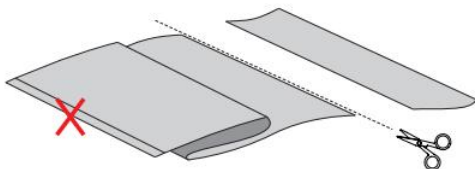

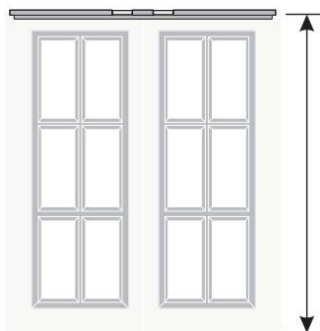

NOTE: After the track is installed, in order to ensure the beauty of the product, please use the included double-sided tape to arrange the rope and paste it on the top of the track.

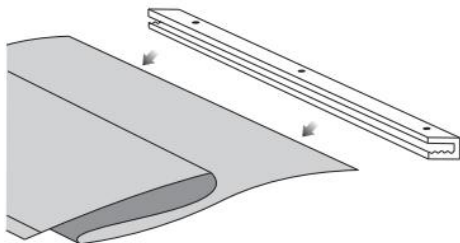

NOTE: Because the valance still needs double-sided tape to paste, please pay attention to keep enough length of double-sided tape, it is recommended to use not more than 200mm.

Step 4

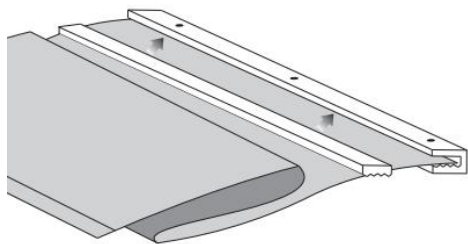

- a. Measure the height you want.
- b. Cut out the unwanted length of panel. DO NOT cut from the velcro side.

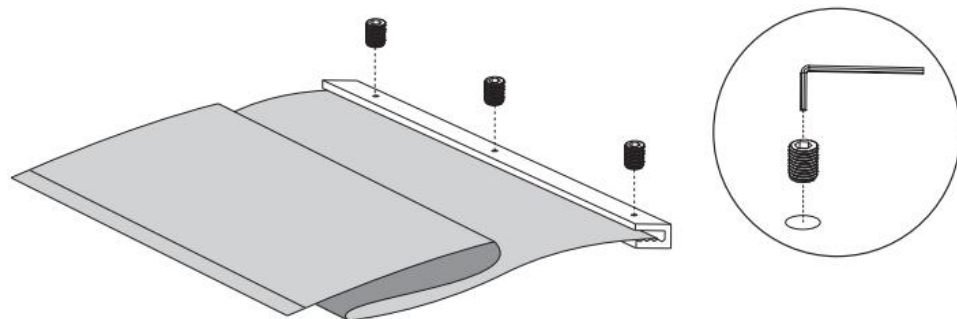

- c. Insert the panels into bottom bars.
- d. Insert the slices into bottom bars.

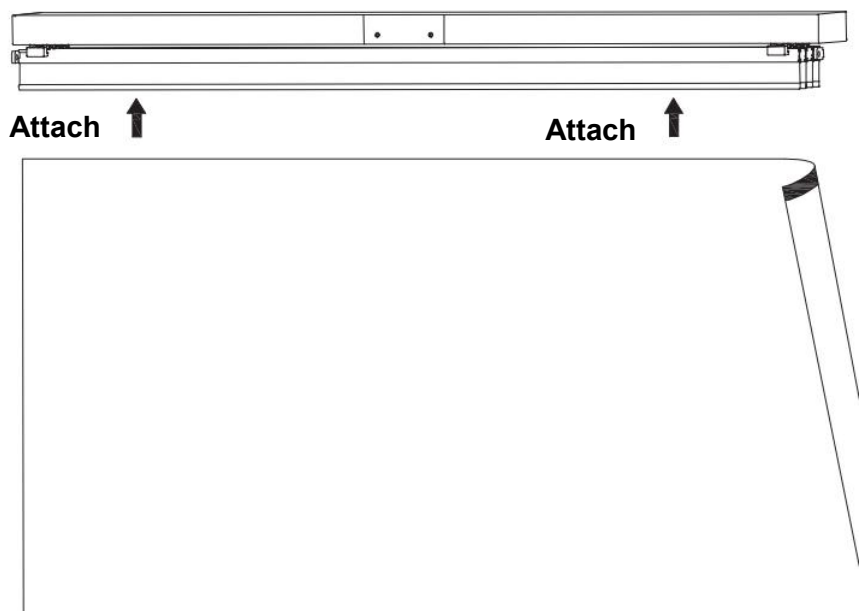

Dentoid

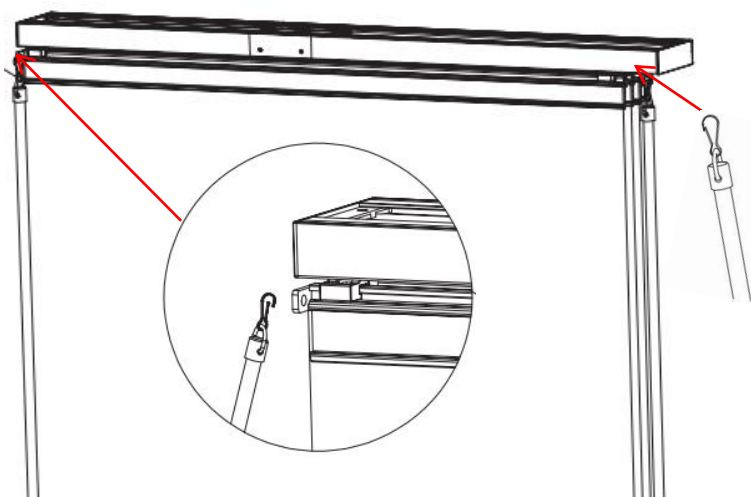

e. Use allen wrench to screw set screws into the bottom bars on flat surface.

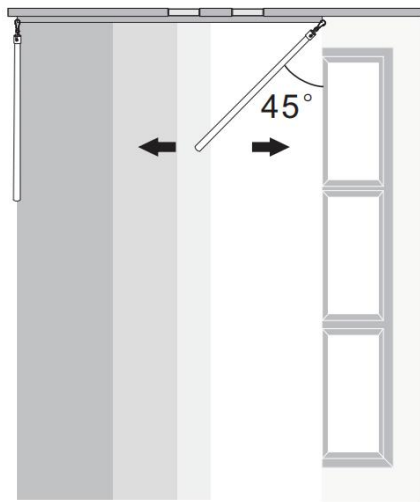

Step 5: Attach it to the top Velcro.

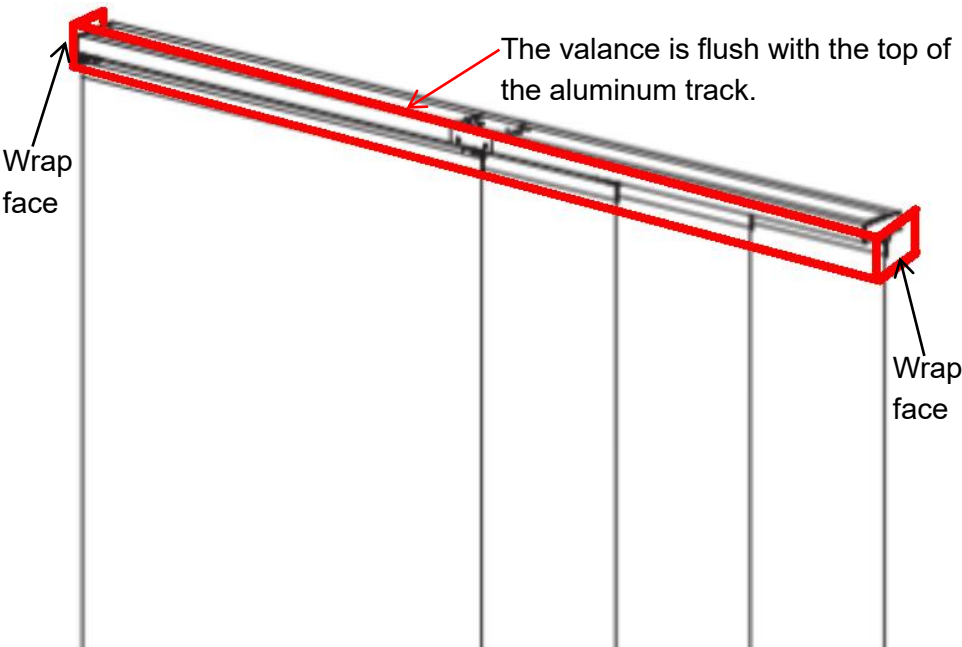

Step 6: Install the Wand on both sides.

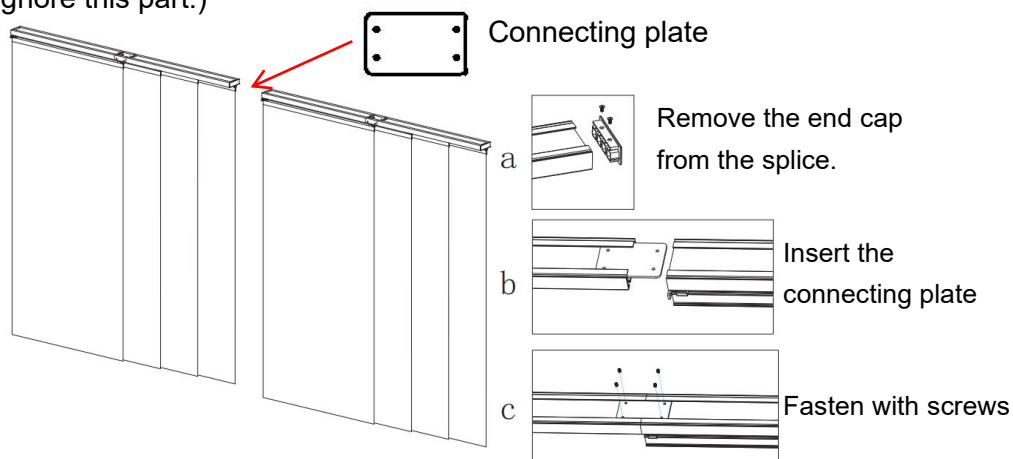

Tip: It is recommended to pull at approximately this angle.

Step 7: In order to ensure the beauty of the product, the valance is pasted on the front of the aluminum track with double-sided tape.

NOTE: If you buy two sets of products and want to connect them, you can connect them with the attached connector. (If you do not need this, please ignore this part.)

MAINTENANCE

1. Cleaning regularly .
2. Collision avoidance.

Forbici

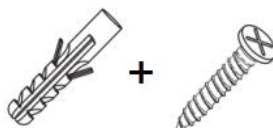

Scala

Suggerimento per la vite : selezionare in base alle condizioni di installazione.

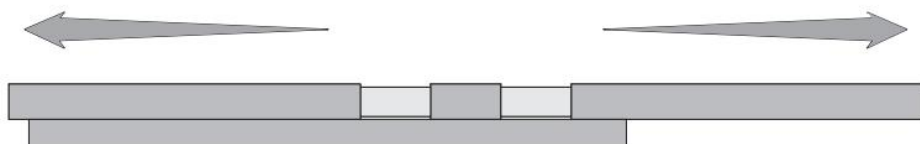

Cemento di legno

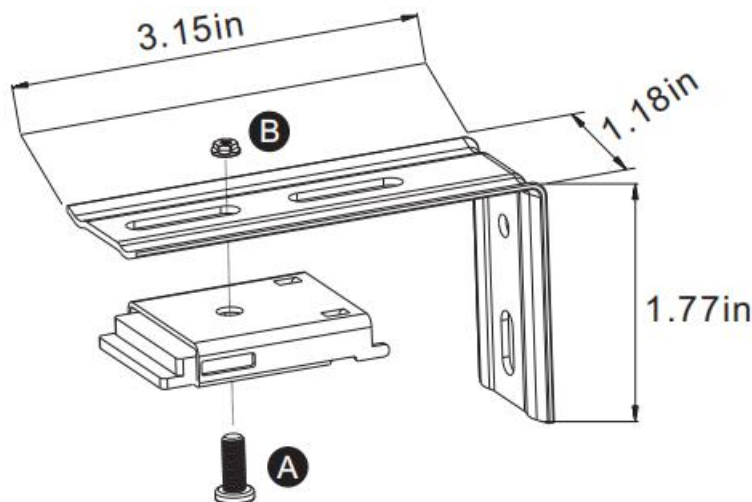

Montaggio a parete

Fase 1-a : Tirare entrambi i lati delle guide fino alla lunghezza appropriata.

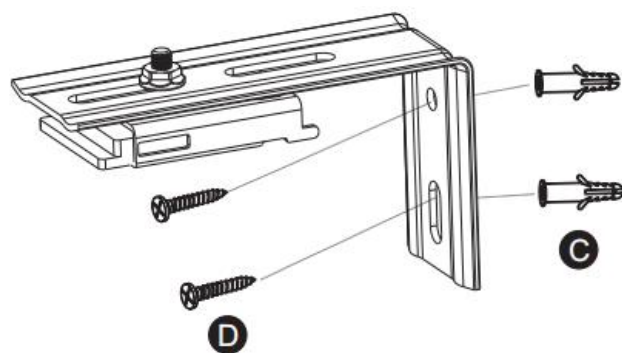

NOTA: la corda nella parte superiore della guida serve a impedire che i due binari telescopici scivolino fuori e cadano. Non tagliare la corda.

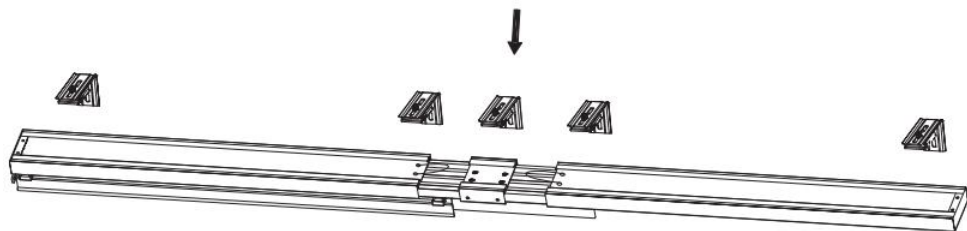

Fase 2-a :

Fase 3 -a :

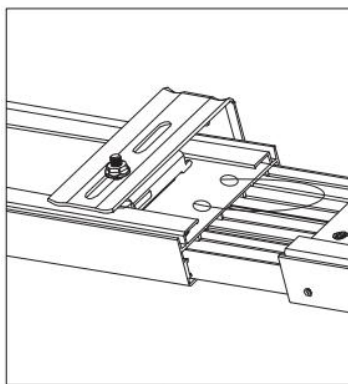

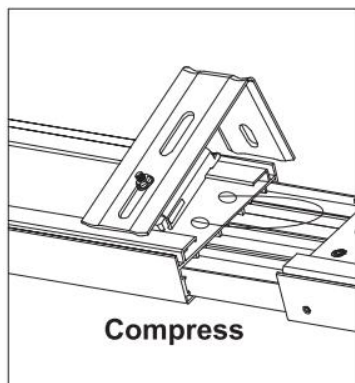

NOTE: You can not use this Wall Anchor if mounted on wood.

Installare le staffe alla giusta distanza e preparare le guide per il montaggio.

Installare la pista come mostrato .

ab

Montaggio a soffitto

Per il montaggio a soffitto non sono necessari i seguenti componenti.

Staffa a "L" x5

(Per montaggio a parete)

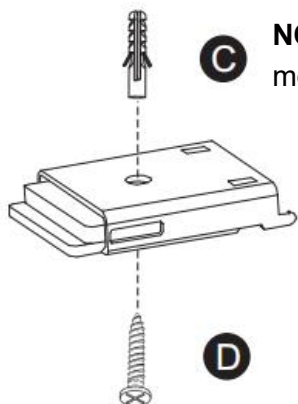

Dado a staffa a "L" x5

Vite di collegamento x5

Fase 1-b :

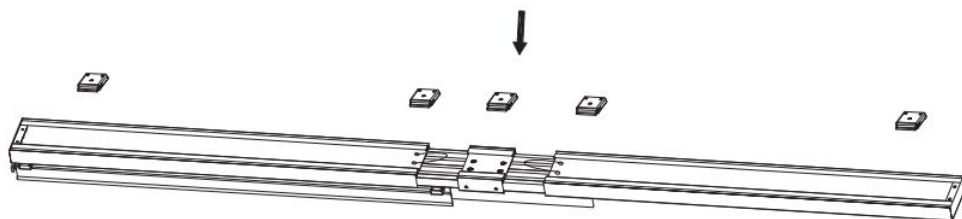

C

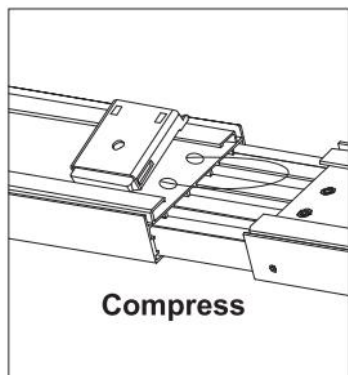

NOTE: You can not use this Wall Anchor if mounted on wood.

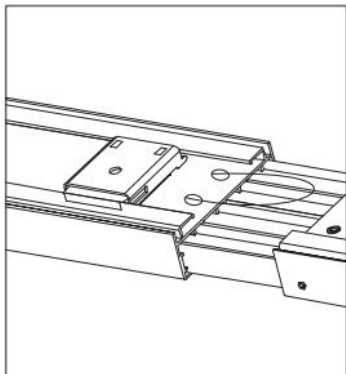

D

Fase 2 -b : Installare le staffe alla giusta distanza e preparare le guide per il montaggio.

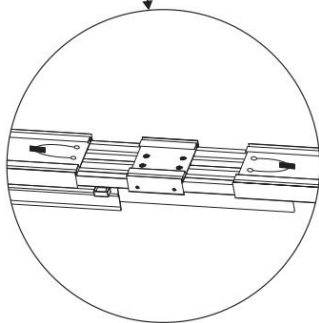

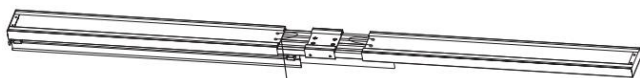

Fase 3 -b : Installare la pista come mostrato .

ab

NOTA: Dopo aver installato la pista, per garantire la bellezza del prodotto, utilizzare il nastro biadesivo incluso per disporre la corda e incollarla sulla parte superiore della pista.

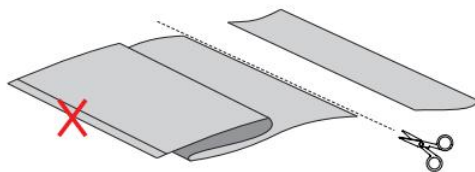

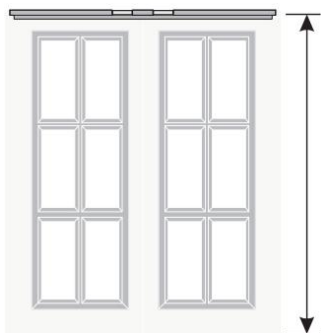

NOTE: Because the valance still needs double-sided tape to paste, please pay attention to keep enough length of double-sided tape, it is recommended to use not more than 200mm.

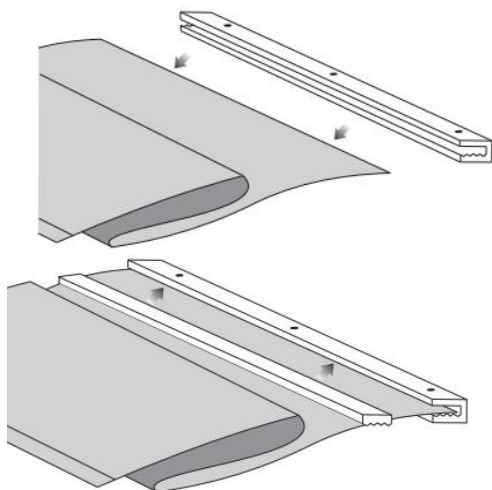

Fase 4

a. Misura l'altezza desiderata. b. Taglia la lunghezza del pannello che non ti serve.

NON tagliare dal lato del velcro.

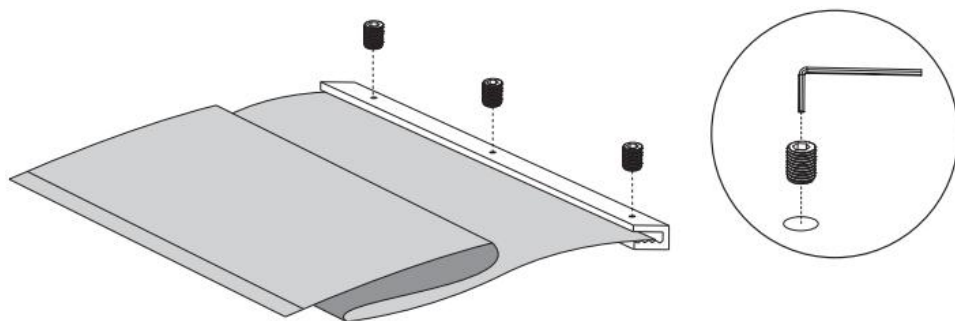

c. Inserire i pannelli nelle barre inferiori. d. Inserire le fette nelle barre inferiori.

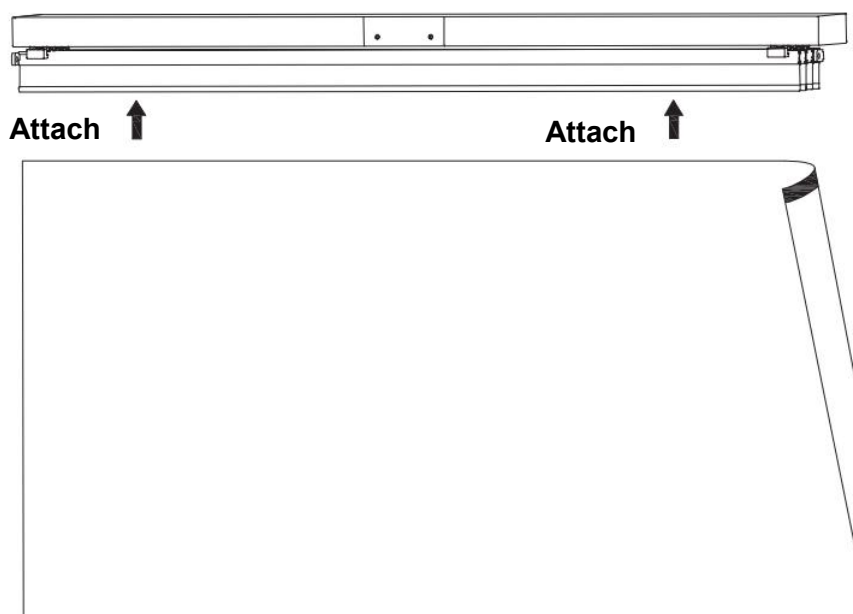

Dentoid

 The word "Dentoid" is written in bold black text. Two red arrows point upwards from the text towards the top of the diagram, specifically towards the strips being inserted into the bars.

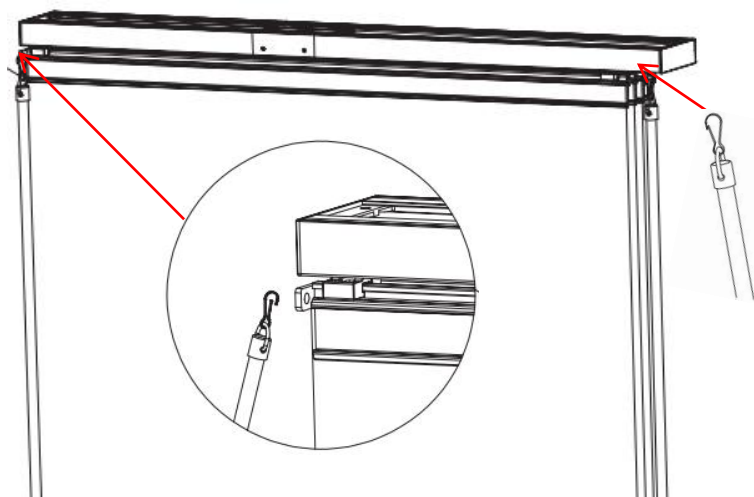

e. Utilizzare una chiave a brugola per avvitarle le viti di fissaggio nelle barre inferiori su una superficie piana.

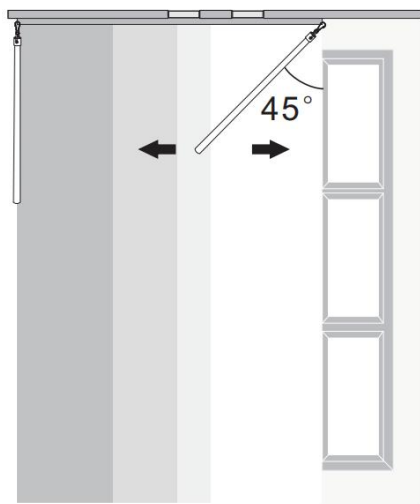

Fase 5: Fissarlo al velcro superiore.

Fase 6: Installare la bacchetta su entrambi i lati.

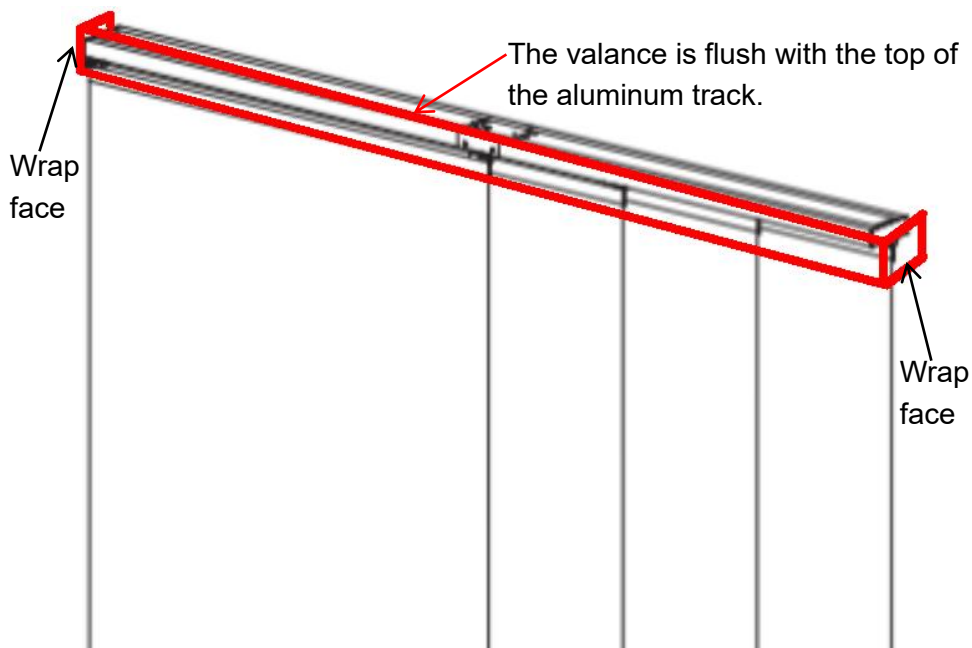

Suggerimento: si consiglia di tirare approssimativamente a questa angolazione.

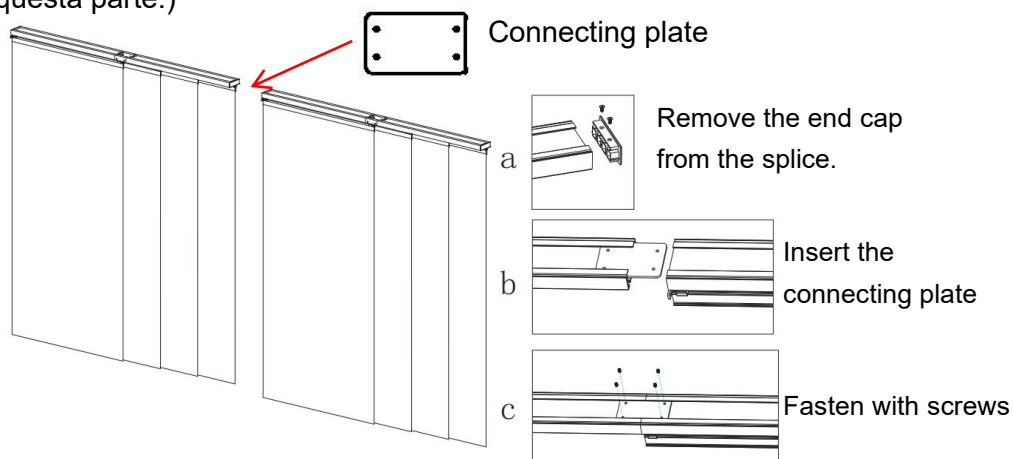

Fase 7: Per garantire la bellezza del prodotto, la balza viene

incollata sulla parte anteriore del binario in alluminio con nastro biadesivo.

NOTA: se acquisti due set di prodotti e desideri collegarli, puoi farlo utilizzando il connettore in dotazione. (Se non ne hai bisogno, ignora questa parte.)

MAINTENANCE

1. Pulire regolarmente.
2. Prevenzione delle collisioni.

Montage au plafond

Les pièces suivantes ne sont pas nécessaires pour le montage au plafond.

Support en « L » x5

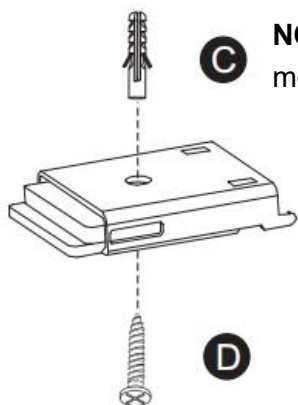

(Pour montage mural)

Écrou de support en « L » x5

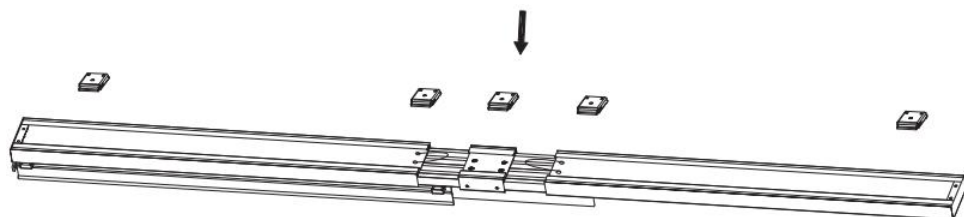

Étape 1-b :

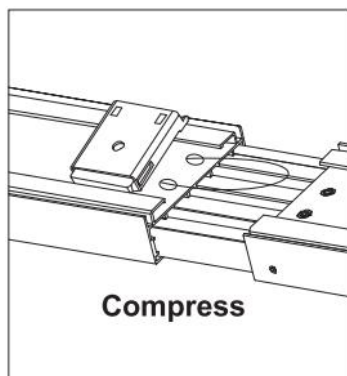

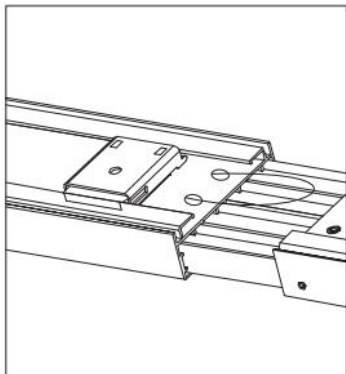

NOTE: You can not use this Wall Anchor if mounted on wood.

Étape 2 -b : Installez les supports à l'espacement approprié et préparez les rails pour le montage.

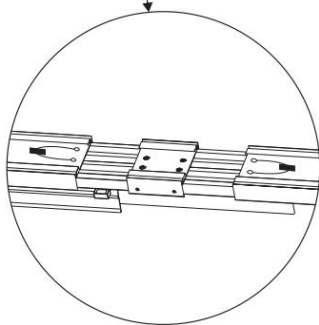

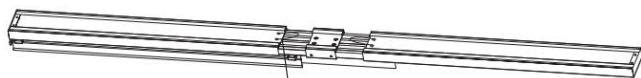

Étape 3 -b : Installez la piste comme indiqué .

un b

REMARQUE : Une fois la piste installée, afin de garantir la beauté du produit, veuillez utiliser le ruban adhésif double face inclus pour disposer la corde et la coller sur le dessus de la piste.

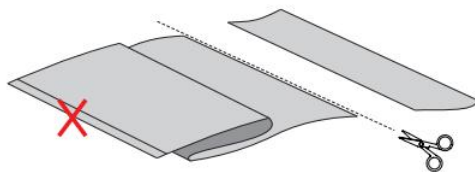

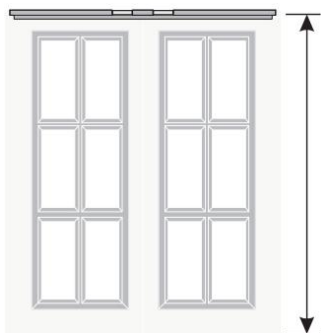

NOTE: Because the valance still needs double-sided tape to paste, please pay attention to keep enough length of double-sided tape, it is recommended to use not more than 200mm.

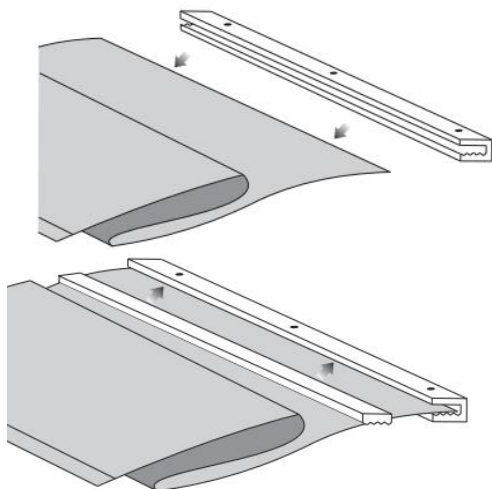

Étape 4

a. Mesurez la hauteur souhaitée. b. Découpez la longueur non désirée du panneau.

NE PAS couper du côté velcro.

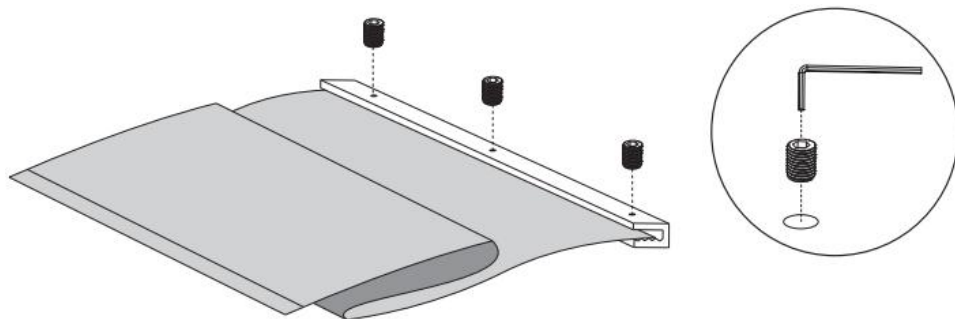

c. Insérez les panneaux dans les barres inférieures. d. Insérez les tranches dans les barres inférieures.

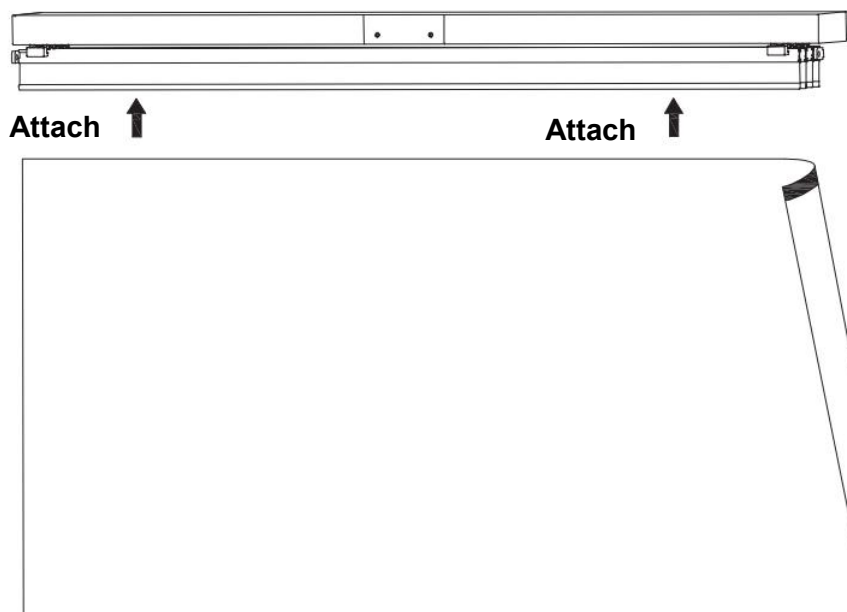

Dentoid

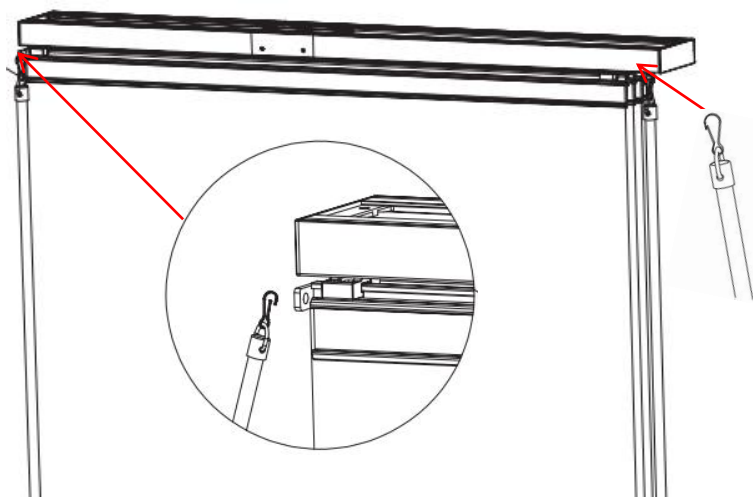

e. Utilisez une clé Allen pour visser les vis de réglage dans les barres inférieures sur une surface plane.

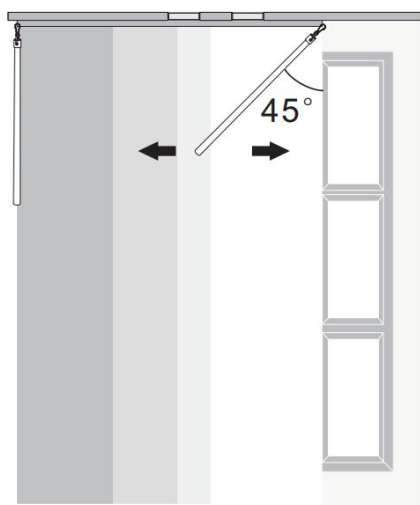

Étape 5 : Fixez-le au velcro supérieur.

Étape 6 : Installez la baguette des deux côtés.

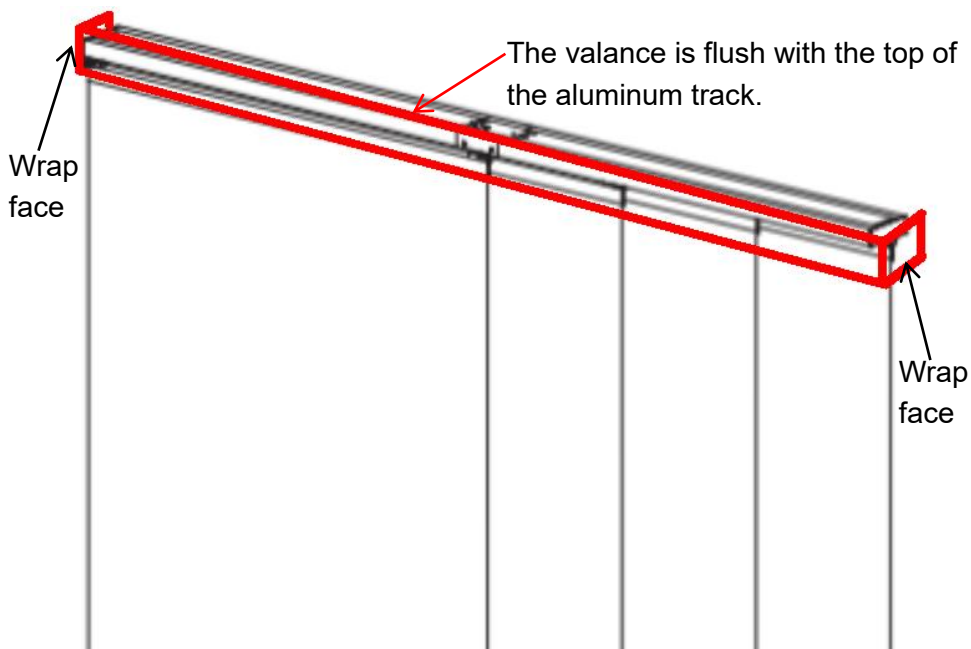

Conseil : il est recommandé de tirer à peu près à cet angle.

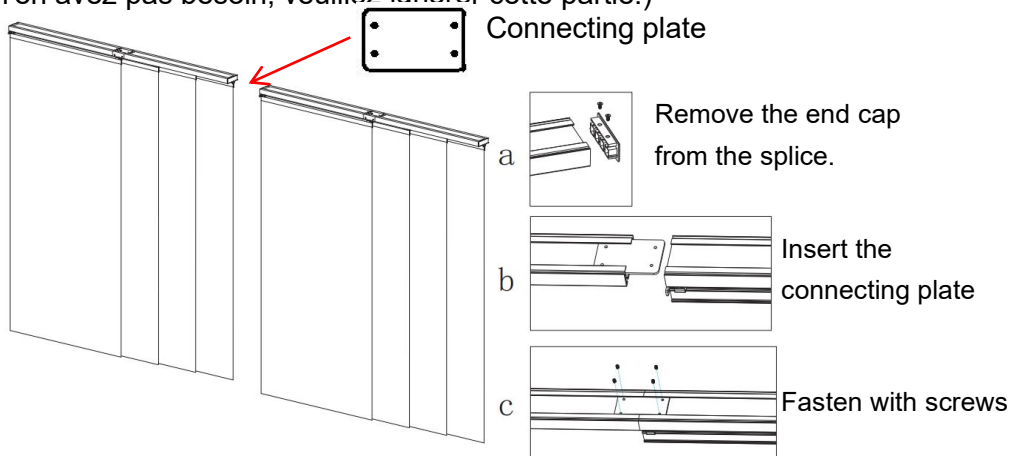

Étape 7 : Afin de garantir la beauté du produit, la cantonnière est collée sur le devant du rail en aluminium avec du ruban adhésif

double face.

REMARQUE : Si vous achetez deux ensembles de produits et souhaitez les connecter, vous pouvez le faire à l'aide du connecteur fourni. (Si vous n'en avez pas besoin, veuillez ignorer cette partie.)

MAINTENANCE

1. Nettoyer régulièrement.
2. Évitement des collisions.

SAFETY INFORMATION

13. Dit product bevat kleine onderdelen. Bij inslikken bestaat er verstikkingsgevaar. Houd deze kleine onderdelen buiten bereik van kinderen!

14. Lees, begrijp en volg de veiligheidsinstructies van de fabrikant van uw elektrische gereedschap. Draag altijd een veiligheidsbril of oogbescherming voordat u het gereedschap monteert en gebruikt. Houd uw handen, gezicht, haar, losse kleding en lichaam altijd op een veilige afstand van spindels en snijgereedschappen. Houd de handgrepen van het gereedschap altijd stevig vast tijdens gebruik. Koppel het apparaat altijd los van de stroombron voordat u het elektrisch gereedschap aanpast.

INSTALLATION

Förbered verktyg :

Drill Skruvmejsel Hammare Måttband

Nivå

Tång

Sax

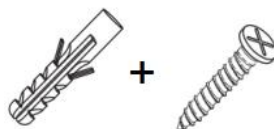

Stega

Skruvförslag : Välj enligt dina installationsförhållanden.

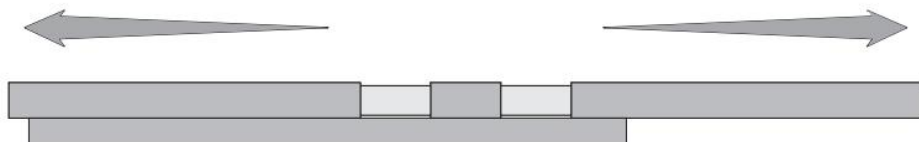

Träcement

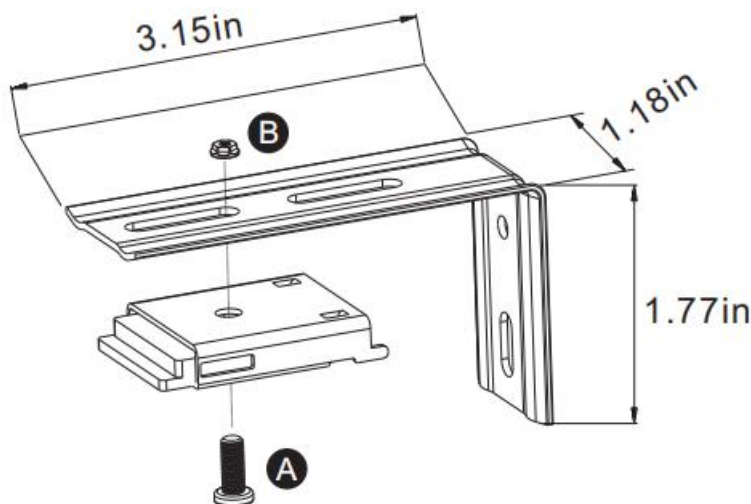

Väggmontering

Steg 1-a : Dra båda sidorna av styrskenorna till lämplig längd.

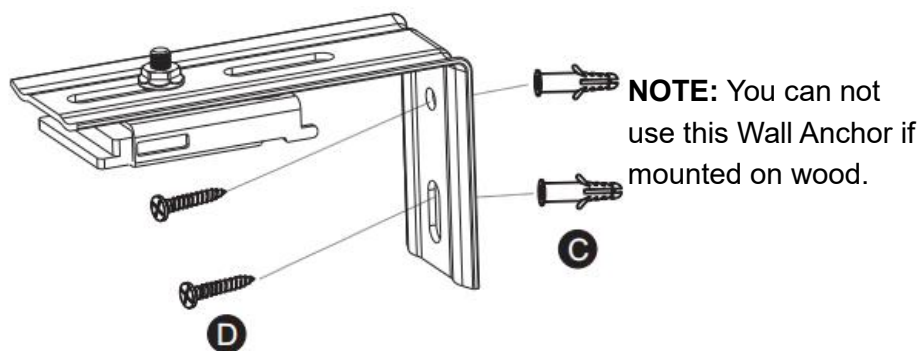

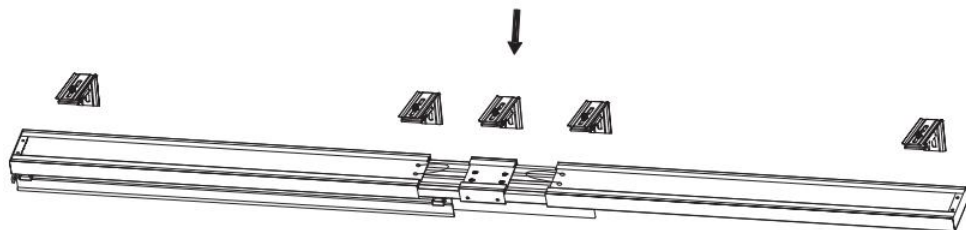

OBS: Repet högst upp på styrskenan är till för att förhindra att de två teleskopskenorna glider ut och faller ner. Kapa inte repet.

Steg 2-a :

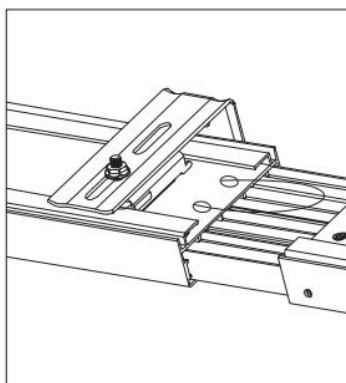

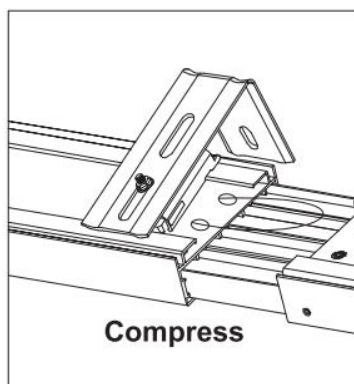

Steg 3 -a :

Montera fästena med rätt avstånd och förbered skenorna för montering.

Montera spåret som visas .

mage

Takmontering

Följande delar behövs inte för takmontering.

"L"-fäste x5

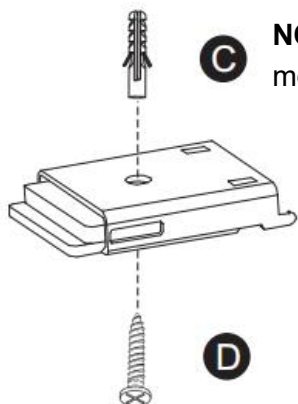

"L" -fästesmutter x5

(F- eller väggmontering) Kontaktskruv x5

Steg 1-b :

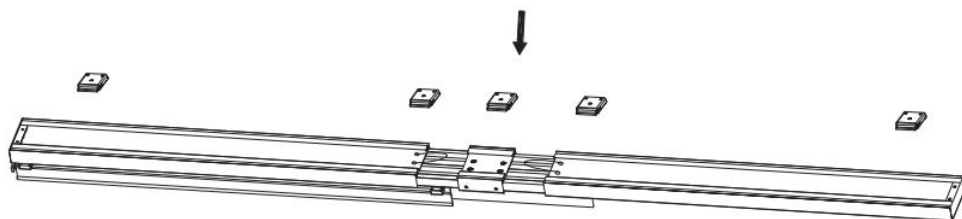

C

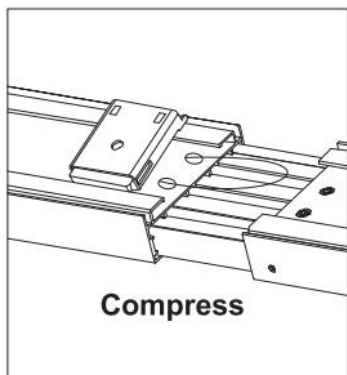

NOTE: You can not use this Wall Anchor if mounted on wood.

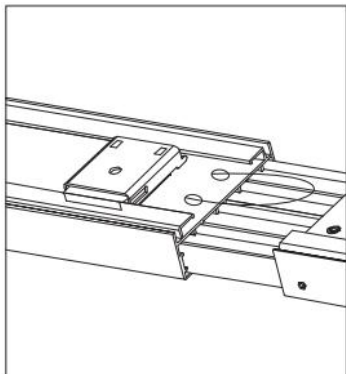

D

Steg 2 -b : Montera fästena med rätt avstånd och förbered skenorna för montering.

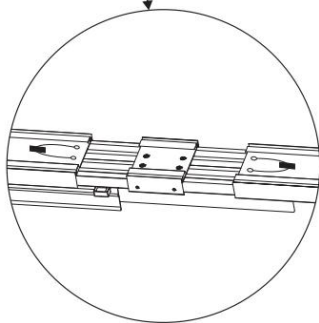

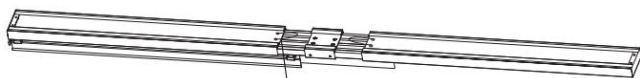

Steg 3 -b : Montera spåret som visas .

mage

OBS: När skenan är installerad, för att säkerställa produktens skönhet, använd den medföljande dubbelhäftande tejpens för att arrangera repet och klistra fast det ovanpå skenan.

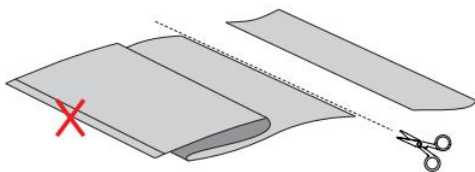

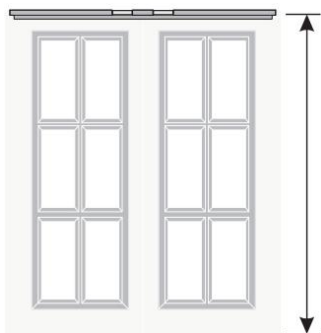

NOTE: Because the valance still needs double-sided tape to paste, please pay attention to keep enough length of double-sided tape, it is recommended to use not more than 200mm.

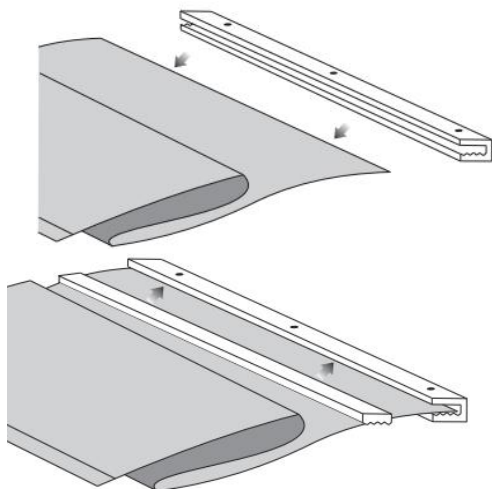

Steg 4

a. Mät önskad höjd. b. Skär ut den önskade längden på panelen.

SKÄR INTE från kardborresidan.

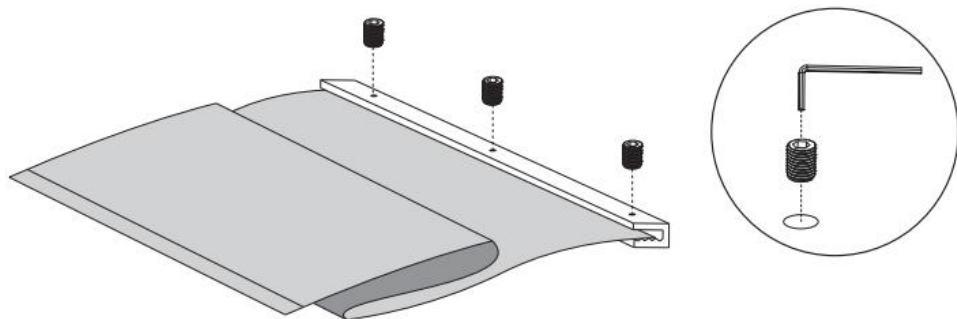

c. Sätt in panelerna i de nedre stängerna. d. Sätt in skivorna i de nedre stängerna.

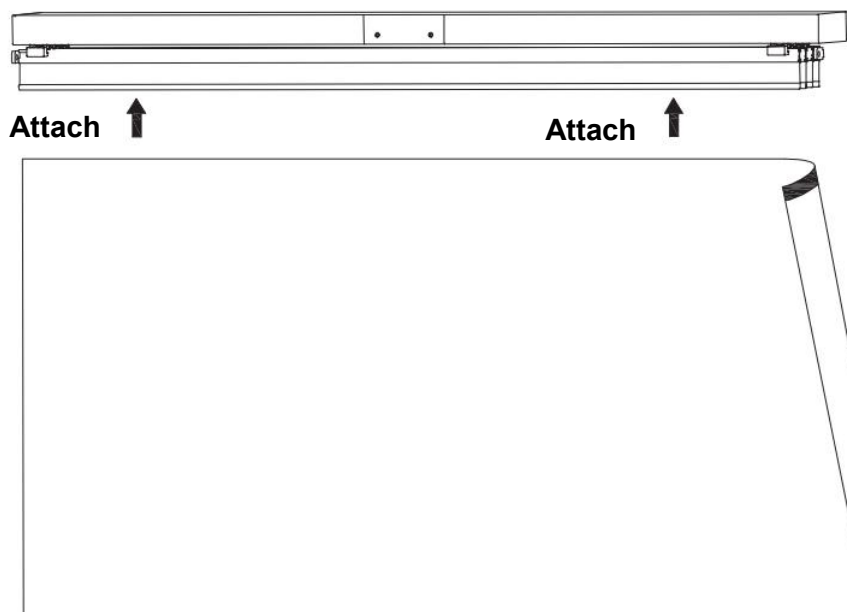

Dentoid

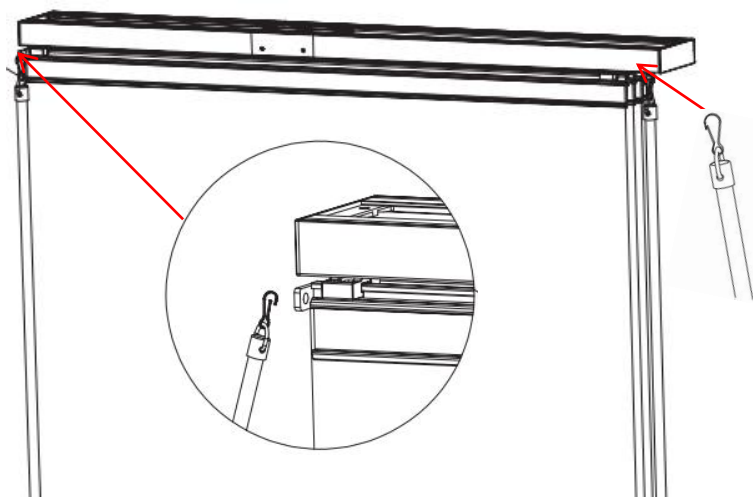

e. Använd insexnyckeln för att skruva in ställskruvarna i de nedre stängerna på en plan yta.

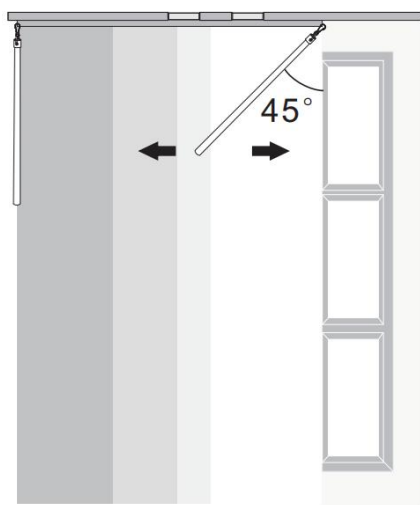

Steg 5: Fäst den på det övre kardborrebandet.

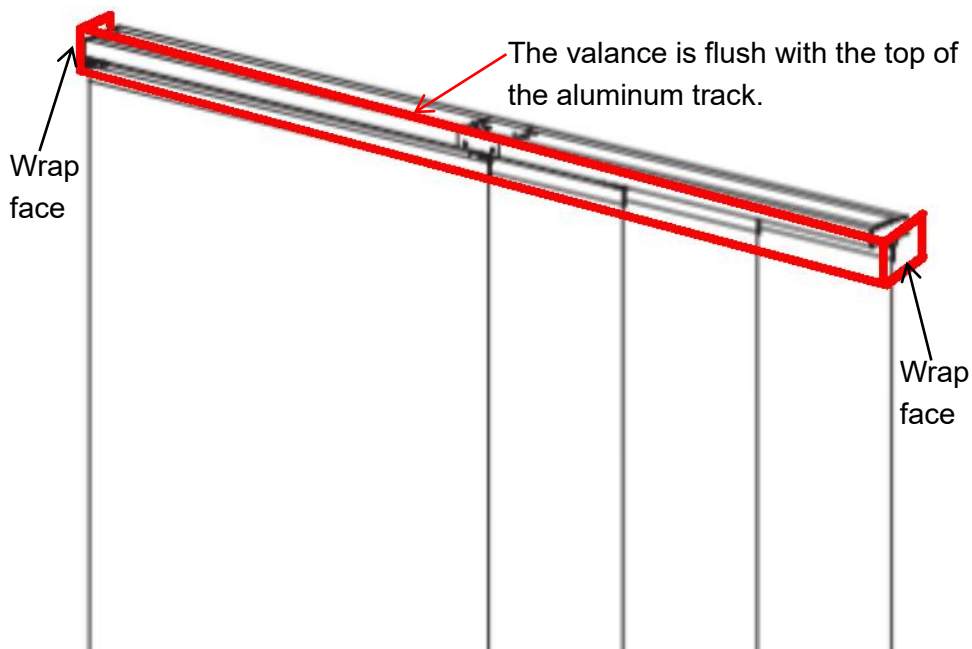

Steg 6: Montera staven på båda sidor.

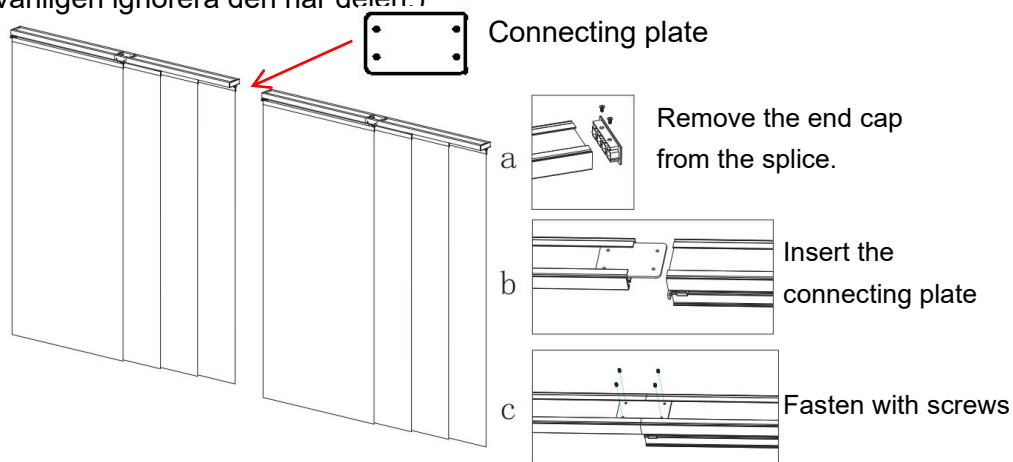

Tips: Det rekommenderas att dra i ungefär denna vinkel.

Steg 7: För att säkerställa produktens skönhet klistras kappan fast på framsidan av aluminiumskenan med dubbelhäftande tejp.

OBS: Om du köper två uppsättningar produkter och vill ansluta dem kan du ansluta dem med den medföljande kontakten. (Om du inte behöver den, vänligen ignorera den här delen.)

MAINTENANCE

1. Regelbunden rengöring.

2. Undvikande av kollisioner.
