

Junior 2

- Installation is best done on a soft and clean surface, such as cardboard, towel, blanket. This will prevent damage to the edges of the furniture.
- Keep both the plastic packaging and the fittings out of reach for babies and children.
- All connections should be properly tightened.
- Before starting the installation, please read the entire assembly manual.
- Do not assemble the elements if you notice any defects or damage.
- Before starting the assembly, please check whether any elements are missing.
