Oświadczenie o zgodności z ustawą UE o danych

9 WRZESIEŃ 2025

Udział

Cudy is committed to full compliance with the requirements of the EU Data Act (EU Regulation 2023/2854 Harmonized rules on fair access to and use of data).

1. Data Holder Information

Data Holder: Shenzhen Cudy Technology Co., Ltd. (hereinafter “Cudy” or “we”)
Registered Address: 7/F, Lepu Tower (West), 66 Xingke Rd, Nanshan, Shenzhen, China
In accordance with the EU Data Act, we act as the data holder for the connected products listed below.

2. Overview of Connected Products

The EU Data Act applies to certain hardware products and related services controlling such products, which are defined under the Act as “connected products” and “related services.”
Cudy provides the following connected products:

- Wi-Fi Routers
- 4G/5G Routers
- Wi-Fi Extenders
- Access Point

These connected products generate and process data during their operation, as outlined below.

3. Data Generated/Collected by Connected Products

Data Name	Data Description	Data Format	Estimated Volume	Continuously Real-time Generated	Storage Location	Stor Dura
Device Operation Information	Network upstream and downstream rates	int	8B	Yes	Not stored	Not
Device Operation Information	Wireless upstream and downstream rates	int	8B	Yes	Not stored	Not
Device Operation Information	Device Uptime	int	4B	Yes	Not stored	Not
Client Connection Information	Online client hostname	int	8KB	No	Not stored	Not
Client Connection Information	Online client MAC address	int	512B	No	Not stored	Not
Client Connection Information	Online client upstream and downstream rates	int	1KB	No	Not stored	Not
Client Connection Information	Online client signal strength	int	512B	No	Not stored	Not
Device Operation Logs	System logs	string (exportable as txt file)	800KB	No	Device side	Clea 800 pow or m dele

4. Data Access, Deletion, and Portability

Cudy provides users with free access to the data generated during the use of connected products and related services:

- Users are able to view the data generated by their devices via the Cudy application or web interface
- Users are able to delete the device-stored data via the web interface
- Users are able to transfer device-stored data via the web interface to a selected third party in a commonly used format.

5. Compliance with Data Requests

In cases of emergency or for the performance of legitimate public tasks (e.g., natural disasters, public safety, pandemics), Cudy will respond to lawful data access requests from public authorities in accordance with the EU Data Act. Such requests will be strictly purpose-limited and follow the principle of data minimization.

6. Interoperability

Cudy ensures that data recipients can process data in a structured, commonly used, and machine-readable format, in compliance with the interoperability requirements of the EU Data Act.

7. Contact and Data Request Channel
