2X OTG CARD READERS
On The Go card readers. View share and show your footage on your phone in a matter of seconds.

EXPLORE CAM

Westin is revolutionizing fishing camera technology with the new Westin Explore Cam! Weighing just slightly more than a single AA battery, this compact device can record an impressive 1 hour and 25 minutes of high-quality footage. The Explore Cam's small size ensures it remains discreet, and its lightweight design allows for use with lighter rods than ever before. Featuring a user-friendly interface, and various add-ons, enabling easy adaptation to different lures and fishing techniques. Whether you are looking to improve your catch rate, find hotspots, or test which lures work – underwater footage can provide the answers you are looking for.
