Quick Set-up Guide

PLEASE READ BEFORE COMMENCING ANY OPERATION. AFTER THE REMOVAL OF ALL THE PACKAGING, CAREFULLY OPEN AND CHECK THE CONTENTS.

Make sure the handle is locked in upright position and storage wheels are retracted. Remove the tank assembly (and battery if fitted) gently lay machine on its front

Floor tool and vacuum hose fitting

Push the brush / pad holder onto the brush motor mounts (1 & 2). Note: Gloves are recommended to be worn whilst fitting and removing the brushes.

To remove the brushes, place your fingers behind the brush deck in locations shown and gently wiggle off.

Push the floor tool carrier handle down and push the floor tool onto the retaining clips (1 & 2).

Take the hose and fit it into the hose retaining clips then push the open end securely over the centre fitting on the floor tool. Follow the arrows for the correct fit. Make sure part (A) of the hose stays loose and is not over stretched.

Main tank assembly removal

Remove the tank assembly from the front of the machine. Using the inset handle on the front of the tank assembly (A), lift the tank assembly up towards the main handle.

3

Lift and tilt the top of the tank assembly away from the handle as you remove. Place the tank assembly on a suitable surface in its upright/uppermost position.

Quick Set-up Guide

Clean water tank removal and filling

After lifting onto a suitable work surface, tilt the tank assembly slightly forward and slide your hand under the tank.

Slide your hand under the tank and curl your fingers up in the space in front of the tank, use your fingers to pop the tank out.

Remove the clean water tank from the main body of the tank holder.

6

Remove the clean water tank from the main body of the tank holder (4&5). To fill remove the rubber stop from the filling neck. Note: There is a T piece keeping the rubber stop from being completely removed.

Pour in the chemical (follow chemical manufactures dilution rates). Only fill the tank to the MAX fill line with clean water using a tap, hose or suitable water container. DO NOT OVER FILL. Slide the tank back into the main tank body, make sure the front of the clean water tank is lifted to enter the recess (A). Push the tank all the way in until you hear it click, make sure it is securely fitted before fitting the tank assembly back on the machine.

www.numatic.com

6

To lower the floor-tool, press down on the left foot pedal lever at the rear of the machine (10-A). To lower the machine deck to the ground. Stand behind the machine, grip the handles. With your right foot push the right pedal forward (11-B). (By pushing lever the front support wheel retracts under the deck (11-C)). Pull the small lever on the right hand side of the handle upwards (12-D) and then pull the handle backwards. To raise the floor-tool (for over-scrubbing without picking up water) use the toecap locations to the rear of the floor-tool (E or F).

Machine handle operation

To start the machine pull one or both triggers in and press the start button with the deck down, this will start the brushes spinning and the battery power indicator will illuminate to show the power level.

With either trigger pulled in press the water on button, this lights up blue to indicate it is on.

Press the vacuum on button, this lights up blue to indicate it is on and the vacuum starts. You are now ready to start cleaning.

Make sure the handle is in the upright position and locked in place, push the handle lock button and locate handle in correct position. **Storage and Transport mode option 1**

To put the machine into storage mode start with the handle locked in the upright position and the floor-tool down (1), pull the handle backwards until the floor-tool moves up and the transport wheels click out into position the front support wheel is deployed (2). Rest the machine back onto the transport wheels (3) (no button or lever action is required). Note: Do not let go of the handle.

Storage and Transport mode option 2

To raise the floor-tool use the toecap locations to the rear of the floor-tool and lift up (A). To raise the machine deck off the ground. Stand behind the machine, grip the handle. With your right foot push the right pedal down (B) while pulling the machine backwards until the storage wheels click into position and the front support wheel extends.

MAKE SURE THE HANDLE IS LOCKED IN THE UPRIGHT POSITION BEFORE LETTING GO OF THE HANDLE.

8

Regular Maintenance

Separator removal and cleaning

separator and pull forwards.

Lift the separator away from the tank.

Take the separator to a suitable cleaning station.

Once the separator has been removed, wash thoroughly under a tap making sure to run water through the tubes and to clean the grid filter (A). Once clean thoroughly check the rubber seal for any damage or cracks (B). If any damage or cracks are found on the rubber seal replace the separator. Failure to replace could cause loss in suction and machine performance.

Clean water tank outlets

Make sure the clean water tank is empty. Unscrew the two clean water outlets, A and B.

Remove the clean water outlets from the clean water tank.

Wash the clean water outlets thoroughly under a tap, make sure the filter is clean with no blockages. Check for any damage (if any damage is found replace the clean water outlets).

9

Changing the Floor Tool Blades

1

holder (1).

Always make sure that the machine is switched off and the battery is removed prior to any maintenance.

0

Unscrew the two knobs securing the blade

Remove the blade holder (2).

To change the floor-tool, firstly lower the floor-tool using the left side floor-tool lowering foot pedal (A).

Pull the floor-tool away from the machine (B).

Replace the Squeegee blades using (903531) replacement blade set (Fig.3), fitting the blades on to the moulded location lugs.

Battery removal and charging

Removing The Battery

Remove the tank assembly from the front of the machine using the inset handle on the front of the tank assembly, lift the tank assembly straight up (A). Pull the tank assembly from the machine and place on the ground.

The battery can then be lifted from the machine for storage or charging using the handle on the battery (B).

For information relating to the operation and charging of your battery please refer to the battery and charger original operating instructions. Maintenance

Daily Keep the machine clean. Ensure brushes / pads / squeegee / filters are in good condition. Check for any worn or damaged parts and replace immediately. Drain and rinse dirty water tank after every use.

Weekly – as daily and – Check brush / pad and deck skirt, wipe and rinse. Check floor tool blades for wear and wipe clean. Clean separator assembly including filter and check condition of seal. Flush out system with clean water and clean filters.

Troubleshooting

PROBLEM	CAUSE	SOLUTION
Machine will not operate	Battery not connected	Connect battery (page 6)
	Low battery charge	Charge battery (page 12)
Vacuum will not operate	Vacuum not turned on	Turn on vacuum (page 7)
Poor water pick-up	Waste-water tank full	Empty waste-water tank (page 10)
	Clogged / blocked squeegee hose	Remove and clean (page 4)
	Loose hose connections	Push tight connections (page 4)
	Separator filter clogged / blocked	Clean (page 9)
	Poor separator seal	Clean and refit (page 9)
	Damaged separator seal	Renew (Spare parts page 16)
	Damaged / split vacuum hose	Renew (Spare parts page 16)
	Damaged floor-tool blades	Renew (Spare parts page 16)
	Low battery charge	Recharge battery - see battery charger manual
No brush / scrub function	No brushes fitted	Check and fit (page 4)
	Brush overloaded	Reset the machine and decrease the brush load
Little or no water flow	Clean-water tank empty	Fill clean-water tank (page 5)
	Incorrect water flow setting	Adjust fluid control levers (page 6)
	Blocked clean water tank outlets	Remove and clean (page 9)

Failure to rectify the problem or in the event of a breakdown contact your Numatic dealer or Numatic Technical helpline +44 (0)1460 269268

WEEE (Waste, Electrical and Electronic Equipment)

Scrubber dryer Accessories and packaging should be sorted for environmentally-friendly recycling.

Only for EU countries.

Do not dispose of scrubber-dryer into household waste.

According to the European Directive 2012/19/EU on waste electrical electronic equipment and its incorporation into national law. Scrubber-dryers that are no longer suitable for use must be separated, collected and sent for recovery in an environmentally-friendly manner.

PPE (Personal protective equipment) that may be required for certain operations.

Warranty

Numatic International Limited warrant to the original purchaser that its products are free of defects in both material or workmanship for the period shown below:-

Homecare and Cleancare Vacuum cleaners	2 Years
Rotary Floor Machines	2 Years
Twintec Auto Scrubber Dryer	1 Year
Vario Ride-On Scrubber Dryer 1 Year / 150	0 hours
Mopping, Compacts, Combi and Servocare Products	. 1 Year
Individual Accessories and Spare Parts	6 Months

Note: This warranty expressly excludes consumable parts such as carbon brushes, floor brushes, mops, batteries etc, that are considered replaceable from time to time during the normal working life of the machine.

A. The warranty period commences from the date the goods are purchased.

B. All warranty claims must be processed through the Dealer from whom the equipment was purchased. The Dealer will co-operate with the purchaser throughout the warranty claims procedure and will arrange any necessary repairs using genuine Numatic parts.

C. If the original Dealer is no longer able to fulfil his obligations please contact Numatic International Limited with full details of the claim and proof of purchase so that this may be processed without delay.

D. Any warranty claim can only relate to the specific part that is proven to be at fault and for which a replacement will be supplied but cannot be extended to constitute a claim against the complete machine.

E. Numatic International will supply the Dealer with any warranty parts required, subject to the claim being validated, after return of the faulty items in accordance with Numatic International Limited's General Conditions of Sale.

F. Claims will not be accepted if they are the result of fair wear and tear, misuse or abuse of any kind.

G. No replacement will be given unless the appropriate evidence of the validity of the claim has been provided to the satisfaction of Numatic International Limited.

H. Numatic International Limited reserve the right to charge for any unnecessary work carried out as a result of an invalid claim.

I. No variation to this warranty may be made or implied by any member of Numatic International Limited or its Dealers unless such variation is in writing and authorised by the Company
