My Home Sweet Home

The rabbit family is home for Christmas, and every room is alive with their love and laughter. Sisters and brothers whisper to each other of secret, last-minute presents. And - uhm! - in the kitchen, something wonderful is cooking... could it be creamy carrot soup and warm cinnamon buns? It's all up to you and your imagination.

An Adventure Awaits!

When little paws prepare for big adventures, they pack for cosy nights under the twinkling stars. They bring bottles of hot chocolate, warm blankets, and luminous lanterns. By a crackling campfire, they roast marshmallows and share tales of the North, South, East, and West, before they say goodnight, feeling truly happy.

Let's have Fun in the Sun!

When the summer comes, small and big beach mice are the first to arrive at the sandy shores. And sure enough, big brother and his younger siblings are riding the waves already - just look at them, showing off their moves and having fun in the sun-kissed water. Good thing Lifeguard Cat is watching, so Mum and Dad can safely relax in those comfy beach chairs.
