

1. Event Parking Overview

Parking operations will begin at 2:00 PM.

Parking will be available at a rate of \$20 per vehicle.

All available event parking areas will be utilized and filled in a west-to-east direction. As individual parking areas reach capacity, vehicles will be directed to the closest available parking area.

2. Traffic Direction and Signage

Signage will be placed near the Williams Field traffic circle to direct regular event traffic south toward the designated parking areas.

Buses will be directed north and will be able to access Edgewater Street via Tillman Avenue for bus parking and staging.

Edgewater Street and Tillman Avenue will be designated for bus traffic only and will not be used for regular vehicle parking.

Staff will be positioned at key locations to direct vehicles, assist with parking, monitor parking availability, and close parking areas as they reach capacity.

3. Parking Payment

The event parking fee will be \$20 per vehicle.

Payments will be processed using a QR code payment system. The QR code payment process will allow vehicles to continue moving through the parking areas without creating unnecessary payment lines or delays.

Parking staff will assist customers who need help completing the payment process.

4. Overflow Parking

Once the event parking areas are full, overflow vehicles will be directed toward Unger and Union Avenue for available on-street parking.
