

Aaron Bovie 900

Hyfrecator/Desiccator

Designed and engineered to be the most reliable and durable desiccator/hyfrecator available today

The Aaron Bovie 900™ allows the doctor to change the power setting with one action, using the rotary power-control dial or the up/down buttons on the autoclavable handpiece. With the Aaron 900, just plug in the footswitch and you are ready to go. You maintain power control from the handpiece, as well as activation from the handpiece or foot control.

The Aaron Bovie 900 is designed and engineered to be the most reliable and durable desiccator / hyfrecator available today. The unit's life is prolonged by incorporating the latest in chip technology and reducing the number of internal parts, thereby generating less internal heat. Post-procedure and long-term cleanup are simplified by its non-absorbing, nonstaining, high-impact plastic case.

Digital Error Detection means unsurpassed safety for you and your patient. The Aaron Bovie 900 continuously monitors every aspect of the unit's output. At the sign of any problem the machine instantly disables the output and displays the appropriate error code on the display.

FEATURES

- Go from low to high power by rotating the power control knob or pressing the up/down buttons on the handpiece. No separate ports, no switching plugs.
- Rotary power-control dial provides smooth, rapid power adjustments.
- Autoclavable 3-button handpiece holds standard 3/32" (0.24cm) electrodes safely and securely.
- Use the same handpiece in footswitch mode.
- Output modes are clearly, logically marked and conveniently located.

SPECIFICATIONS

Output Power:
0-10 Watts adjustable
in 1/10 Watt increments
10-30 Watts adjustable
in 1 Watt increments
Line Voltage A900
(A800EU-110) – 120 VAC 10%
A900-220 (A800EU-220) – 220
VAC 10%

Output Frequency:
550 kHz

Line Frequency:
50-60 Hz

Dimensions:
9" W x 6.25" H x 4.5" D

Weight:
< 5 lbs.
