

Balanced ultra low-flow anesthesia with added patient safety

Great for smaller operating suites

In operating suites where saving space is just as important as administering balanced low-flow anesthesia, the DRE Integra SP I is a perfect fit.

The SP I features a single vaporizer—as well as a recessing absorber and ventilator bellows—creating a narrow design. Its small footprint make the SP I a popular choice for oral and plastic surgeons with smaller operating suites.

► A Quick Look

- Three gas machine (O₂, N₂O, and Air)
- Specifically designed for low-flow
- Holds one vaporizer
- Ventilator options (not included):
 - DRE AV800
 - Ohmeda 7000 or 7800
- Mechanical Anti-Hypoxic Device and Air/N₂O interlock
- Selectatec®-compatible vaporizer mounting system
- Double-canister CO₂ absorber comes standard and slides under work shelf
- Left or right-handed layout
- Writing table and footrest
- Contemporary ergonomic design

Physical Dimensions

Height: 54.0" (137 cm)
Width: 18.1" (46 cm)
Depth: 26" (66 cm)
Weight (with all options): 154.35 lbs. (70 kg)

Power

Power Requirements: 110/220 VAC
Auxiliary Electric Outlets: (4) 13 Amp

Display

Top shelf: 18.9 x 16 in (48 x 40 cm)
Work surface: 17.7 x 14.5 in (45 x 37 cm)
Drawers: 6 x 15 x 17 in/max: 3 (15 cm x 38 cm x 43 cm)
Writing tablet: A4 size
