

# Datascope Passport V

## Vital Signs Monitor

The Passport V offers a comprehensive range of options that make it well-suited for most hospital departments.

The Passport V has a straightforward and predictable interface, enabling you to easily perform functions and optimize the presentation of patient information. When paired with our well-known Gas Module 3, Passport V is an excellent choice for the operating room. Transport without complexity. With a one-touch mechanism, the monitor is instantly disengaged from the wall mount or rolling stand and ready for transport, patient cables and all.
