

LW Scientific ZipCombo

Centrifuge

The perfect solution to your micro-centrifugation needs

The multi-function ZipCombo Centrifuge is available with a choice of two rotors to help meet the needs of any professional veterinary clinic. The rotors are capable of bringing results in as little as three minutes. The ZipCombo has a six-place microtube rotor that can spin 1.5 to 2.0 ml tubes, and also comes with adapters for smaller size tubes. Additionally, its high-quality construction ensures that this centrifuge will last a long time, making it an excellent investment.

FEATURES

- › Interchangeable microhematocrit or microtube rotors
- › Digital LCD display of speed and time
- › Clear lid for using tachometer
- › Beep signals end of cycle
- › Suction-cupped feet to prevent slipping
- › Allen wrench included for changing rotors
- › Small footprint conserves counter space
- › Quick start and stop
- › Smooth operation
- › Designed for: blood and urine separations, microfiltration of HPLC samples, DNA preparations
- › Brushless, maintenance-free motor
- › Variable speed: 1000-12000 rpm in steps of 1000 rpm
- › Maximum RCF of 6900g

COMPONENTS

- › Centrifuge unit with no rotor
- › 6 place microtube rotor with adapter sleeves for 0.2ml-0.5ml; 0.6ml-1.5ml; 1.5ml-2.0ml microtubes
- › 12 place microhematocrit rotor (40mmx0.95mm max tube size)
- › Replacement vials of 100 40mm heparinized capillary tubes
- › EZ Reader microhematocrit reader card
- › Optional: Critoseal clay tube sealant (one tray)

SPECIFICATIONS

Weight:
2 lbs (0.9 kg)

Height:
5.1" (130mm)

Length:
7.9" (200mm)

Width:
6.3" (160mm)
