

Moduflex Elite

Anesthesia Machine

Provides excellent mobility and stability

Its compact size and base shape, combined with its large castors, provide excellent mobility and stability. This machine is great for general surgery and is often used in orthopedic procedures. Optional scavenger interface and bain circuit adaptor offers increased flexibility.

FEATURES

- › Rebreathing machine
- › 0.1 to 0.4 oxygen flowmeter
- › Rotary float and large scale for easy readability
- › Recessed flush valve to prevent accidental activation
- › Quick-connect fresh gas outlet for easy and secure switching between breathing circuits
- › SELECTATEC™ compatibility manifold for easy and quick installation of vaporizer
- › 1500 ml CO2 absorber designed for easy and fast replenishing of sodalime. Condensation trap to prevent water build-up in sodalime
- › Convenient monitor shelf
- › Patient circuit with 2 and 3 liter bags
- › New momentary closed feature incorporated into our pop-off valve

SPECIFICATIONS
