

Oakworks CFPM100

Imaging Table

A robust, cost-effective single lift table that is compatible with all major C-arm systems

The CFPM100 Imaging Table is a robust, cost-effective single lift table that is compatible with all major C-arm systems. Available with a rectangular top or an integrated headrest.

FEATURES

- One-motion imaging table with a height range of 25 to 43 inches.
- Exceptional value for up to 500-pound weight capacity.
- Superior image quality for fluoroscopy guided procedures.
- Ideal for pain management practices, surgical centers and other multi-disciplinary medical facilities.
- Table is compatible with all major C-arm imaging systems.
- Safe and secure wheelchair transfer due to its extra-low height range.
- Durable base material helps guard against c-arm scrapes and damage.
- State-of-the-art foot control can be removed from the base and placed on either side of the table.
- Available with either a rectangular top or integrated headrest
- Comes standard with a tabletop pad (22 x 84 in) and three cranial positioning pads for either prone or supine procedures.
