

Schuco-Vac 330

Aspirator

Modern, compact aspirator

The cost-effective Schuco-Vac 330 Aspirator is comparable to the Schuco-Vac 130 Aspirator. The 330 has a newer and compact look. Like that of the Schuco 130, the regulator assembly has been replaced with a bacteria filter, eliminating the cap and float assembly. This filter will prevent fluids and other contaminants from damaging the pump.

This durable unit continues to meet the need for controlled vacuum regulation from 0" up to 22" Hg with a flow rate of 28 lpm.

FEATURES

- Vibration-free easy-to-read regulator gauge
- Sturdy basket accommodates 800 cc or 1200 ml canister
- Quick-connect tubing for all connections
- Hydrophobic/bacteria filter eliminates pump flooding, and prevents contaminant damage
- 3 filters included with every pump

SPECIFICATIONS

Vacuum Regulation:
From 0" to 22" Hg with a flow rate of 28 lpm
