# Monitor patients throughout your facility from a single location

The economical, configurable DRE Vetrec VST includes telemetry transmitters for wireless cardiac ECG monitoring. No other system provides the high level of flexibility that the DRE Vetrec VST offers. Each channel is independent, allowing the use of Stationary and Telemetry Transmitters on a single system.

The operating system is powered by Windows 7 Pro and provides a highly versatile platform. The DRE Vetrec VST supports both laser printers and thermal recorders.

Monitor up to 16 patients at once using waterproof ECG transmitters and Waveline patient monitors

Features:
- Supports up to 16 DRE-brand patient monitors or portable transmitters
- Using a networked system, you can email discharge reports in PDF format
- Auto charting
- Full disclosure (96 hours)
- Auto generation of alarm events
- Manual recording—ECG analysis
- Schedule printing of reports
- Trends, charts and strips with arrhythmia
- Detection of ECG data
- Color waveforms (20 colors)

Portable Transmitters
- Single/multi-lead ECG
- Independent lead wires
- Waterproof
- Operates on two AAA batteries
- Small and lightweight
- Frequencies
  – USA: Medical 608 MHZ
  – Europe 433 MHZ
  – International: 174 MHZ

Includes the following hardware:
Vetrec VST CPU • Mirrored Hard Drive Back-up
Receiver Station • LCD Color Monitor • Laser Printer
Up to 16 transmitters • All necessary hardware cables
