

Understanding Your Care: Antidote Health Plan's Prior Authorization Report

Reporting period: Calendar Year 2025

In our ongoing commitment to transparency and empowering our members, Antidote Health Plan will annually publish aggregated prior authorization metrics on our website. This initiative, which aligns with the latest healthcare regulations, will provide a comprehensive list of all medical items and services (excluding drugs) that require prior authorization. The report will also include data on prior authorization requests from the previous calendar year, detailing both approvals and denials. We believe that providing this information will assist patients in understanding the prior authorization process, enable healthcare providers to assess payer performance, and facilitate clearer comparisons among plans.
