

The SL Record Report 09-05 (September)
Current Editor: Allen Evenson

Here's the (very late) RoS for September - 22 games reported this month, bringing the total to 3331.

Correction to last months report: EP1 "Tanker's Delight" was omitted from the Well balanced list.

Submit your reports via the web: <http://www.alpage2.ukfsn.org/>
or, email to me directly: asevenson@comcast.net

Until Next Month,

Allen E.

THE CUMULATIVE REPORTED RECORD FOR THE SL DISCUSSION LIST

This is the official record for the SL Discussion List. The format was originally conceived for ASL by John Foley, and is now automated for ASL at

<http://www.jrvdev.com/ROAR/VER1/default.asp>

This list for SL was started and maintained by Dan Leader until July 1994. It then passed into the capable hands of Kevin Pietersen until November 1995. Alain Chabot maintained it from December 1995 to December 2003.

The **only** qualification for submitting records is that you subscribe to the SL Mailing list.

YOU MAY SUBMIT RECORDS FOR NON-SUBSCRIBERS.
YOU MAY SUBMIT RECORDS FROM PAST YEARS.

AND If you attend a tournament, you may submit the tournament's results. I mean all of them, not only your own games. Please keep that in mind if you travel to one of them over the Summer.

To submit your record of scenarios played, please send the scenario ID#, and the scenario winner for each of the scenarios you have completed or can vouch having been played. When you send me mail, I'll promptly send you a thank you note to confirm my receipt of your mail.

[ED Note: I have not been sending individual confirmations as of late.]

Please send your record entries to asevenson@comcast.net or use the form at "<http://www.alpage2.ukfsn.org/>". Make it clear in the subject line that the message is meant to add to the record (or correct it, or whatever). I suggest the subject "For the record". In the body of your message, tell me the ID# (if one exists) and the Title of the scenario and which side won. If you played against a fellow list member, please let me know who that person is and/or his email address.

The best would be for you to use the same format I use for the recent dispatches below. Thanks for your cooperation.

As usual, I remind you to send me email entries with a subject field that clearly identifies your message has containing a record entry. I may have omitted entries in the past if it was not clear at all what the message was about. I receive a **LOT** of email every day, and I tend to delete quite a bit of stuff. Feel free to include comments, after action reports. I will gladly read them and may even respond. But make sure the record entry itself is up front. If the message includes many entries, make sure they are all together. Do not assume I will read on and on only to find another report

buried at the bottom of the email.

Please do NOT include scenarios played solitaire. Play against any opponent by any means (FTF, PBM, PBeM) is great.

I will accept the records for all SL/COI/COD/GI scenarios that have been published by TAHGC, either in the modules, the supplemental scenarios, or in the GENERAL. Records of non-AH scenarios will also be accepted if they have been published somewhere; these will be attached to the end with details of their origin and where they may be purchased or copied from. Please tell me about any mistakes you find. Thank you for your help.

If you want to join the SL ladder or report a ladder game in progress, please contact Alan Yngve at a-yngve@mindspring.com

Recent Dispatches

Here are the latest scenario results from the listees. These people are the reporters, not necessarily the scenario winners. If you see any mistakes in *your* summary, please write immediately.

(Please note that when I get multiple reports of the same game, I list it under the first player to report).

Recent dispatches are arranged in alphabetical order of dispatchers. The number to the right is the serial dispatch number)

A special thanks is extended to the following people, since without them this database simply would not exist.

Company of Contributors

As of the September 2002 Record, those whose last contribution dates from 5 years or more are retired to a special section for the attritioned members. If you see yourself on the verge of consignment to the scrap heap (or you happen to have been tossed in it) and it bothers you, the time has come to dust off those dice and play and report a game.
