

UNITED STATES ARCTIC RESEARCH COMMISSION

The US Arctic Research Commission (USARC) is an independent federal agency that advises the President and Congress on domestic and international Arctic research through recommendations and reports.

The Commission's seven members represent three specific domains important to executing the USARC's mission in Alaska and throughout the Arctic:

- Four members from academia or other research institutions with expertise in areas of research relating to the Arctic, including the physical, biological, health, environmental, social and behavioral sciences.
- One member from among indigenous residents of the Arctic who represents the needs and interests of Arctic residents and who lives in areas directly affected by Arctic resource development.
- Two members appointed from among individuals familiar with the Arctic and representative of the needs and interests of private industry undertaking resource development in the Arctic.

The President of the United States designates one of the appointed Commissioners as chair. The Director of the National Science Foundation serves as a nonvoting, ex-officio member.

FRAN ULMER | CHAIR
US Arctic Research Commission
Anchorage, Alaska

DAVID BENTON
Fisheries Consultant
Juneau, Alaska

KASAANNAALUK MARIE N. GREENE
Past NANA Regional Corporation
President and CEO
Kotzebue, AK
