HEAD WAY OFF THE BEATEN PATH

For when the route is unpredictable – but the ride must be solid. Head way off the beaten path with this gravel racer featuring performance-driven geometry derived from Argon 18's legendary World Tour bikes. Go wherever the day takes you with assured handling and optimal power transfer, to control the terrain regardless of the surprises it may throw at you. We wanted a bike that offered supreme confidence alongside racing behaviour, a bike that would feel just as playful and responsive on the dirt as it would on the road. Our gravel geometry provides fork rake specific to frame size, to allow for tight turn clearance on more technical runs, and with an eye toward ride quality, the Dark Matter features seatstays designed to flex and dissipate shocks. You'll also get three head tube extension heights for every frame size with our streamlined 3D+ system: 0mm, 15mm and 30mm.

ALL TERRAIN HANDLING: Supreme confidence alongside racing behaviour, a bike that feels just as playful and responsive on the dirt as it does on the road. The Dark Matter also features clearance for 45C, to offer maximum traction and comfort on all surfaces.

SEAMLESS INTEGRATION: Fully integrated 3DPLUS system delivers all the handling and stiffness benefits of the original 3D system in a streamlined package that merges seamlessly with the frame.

RIDER DESIGNED: Gravel geometry provides fork rake specific to frame size, to allow for tight turn clearance on more technical runs.

*40C with fenders, 35C with SRAM ETAP AXS 2x12; 28C with SRAM ETAP 2x11

ARGON 18

DARK MATTER

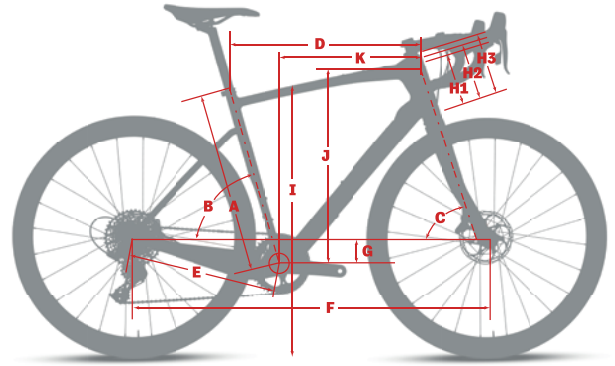

Ideal for gravel racers looking for poppy performance and nimble responsiveness on all terrain.

341A - HYPER-SILVER COAL BLACK

341B - DAWN BLUE DARK RED
