

# E-117 TRI DISC

## THE NEW REFERENCE POINT

317A - Ocean Blue, Gloss

Already known for its superb handling, the addition of disc brakes to the E-117 Tri provides increased confidence, additional clearance for overall comfort (28c), and the added stiffness of thru-axles.

**CONFIDENT HANDLING** · Ideal for those considering their first dedicated tri bike, or new to the TT position. Already known for its superb handling, the addition of disc brakes to the E-117 adds increased confidence, additional clearance for overall comfort, and the added stiffness of thru-axles.

**VERSATILE AND ADJUSTABLE FIT** · Highly adjustable open cockpit allows for choice aerobar, and aero carbon seatpost offers an adjustable offset. Our 3D system extends fit options with three head tube heights for every frame size, easily accommodating athletes as they dial-in their position.

**SIMPLICITY AND CONVENIENCE** · No proprietary integration makes the E-117 Tri Disc easy to ride, easy to travel with, and easy to maintain. Ready for all storage needs, including toptube, downtube and rear hydration mount. The addition of disc brakes makes wheel changes easier, as there are no brake adjustments to make and no brake pads to swap when switching to race-day carbon wheels.

Also available  
317B - Black, Matte
