352A - Crystal Black, Gloss

Meet the best of the best: aero to match the Nitrogen, pure road performance to match the Gallium Pro, with race-ready handling and premium ride quality. The all-new SUM Pro features our most advanced layup and technologies to get you to the front of the group and keep you there, through the climbs, the corners, and the sprints.

HAVE IT ALL · CFD analysis shows the SUM's aero performance as equivalent to the all-aero Nitrogen and 9% faster than the Gallium Pro Disc. A lightweight layup is complemented by a minimalist candy clearcoat directly over the carbon.

PRO LEVEL ENGINEERING · CFD-optimized to maximize aero shapes while stripping unnecessary weight. The downtube, toptube and chainstays are optimized for the perfect ratio of size, material thickness and aerodynamics. The hourglass-shaped headtube provides low drag while being rigid and lightweight.

STAY IN FRONT · Design details like dropped seatstays and an indented seattube assure compliance in all the right places to keep you rooted in the saddle. An updated size range reflects our knowledge of rider fit, providing the best handling and positioning across all sizes.

PACKED WITH FEATURES · Loaded with real-world, rider-oriented details like non-proprietary cockpit, our updated 3D system for the widest fit window, easy adjustment - and maximum stiffness, and generous tire clearance (30c).
