

40mm FORK

LEADING EDGE AERO INNOVATION

ADVANCED DEVELOPMENT AND INNOVATION

30% DRAG REDUCTION

Reduced front wheel axle and fork legs as close as possible to disc wheel make the best pursuit fork profile.

100mm

40mm

-10% WEIGHT AND 12% ADDED STIFFNESS

Optimisation of lay-up was performed to get the minimum weight while keeping fork stiffness and strength.

INNOVATIVE SHAPE AND ALIGNMENT

Best balance between stiffness and maximum aero efficiency

HUGS THE WHEEL

As close to the wheel as possible

TIMING CHIP BRACKET

Aero gains

40mm X 15mm THRU AXLE

Less drag, more stiffness

WEIGHT **443g**

CARBON FIBER LAYUP

COMPATIBILITY

Electron Pro TKO (frames & cockpits)

WHEELS

Zipp Super-9 Tubular Track Disc Aus
Zipp Super-9 Carbon disc Tubeless Track

IN THE BOX

40mm fork
Thru axle
Stem insert
Steerer
Steerer plug
SHCS M5x12 screw

See assembly guide for comprehensive list [HERE](#)
