ENDURANCE GEOMETRY:
STABILITY & COMFORT

For those who live to go out of bounds, get ready to set new limits with the Subito eGravel. Get that first kick through the washboard up a climb, or extra jump through muddy ruts. Built on the Ebikemotion platform, the Subito eGravel promises a little something extra when that kick is needed. Stable ride quality from a longer wheelbase, dropped chainstays and clearance for 650x45c (47mm) tires offer the confidence to take the road less travelled. Just like our All-road models, the handling components have been tuned to offer a precise and predictable riding experience, so that you can get up to a little trouble without losing your grip.
