TABLE OF CONTENTS

Aries has your customer's vehicle covered with our quality, innovative interior products. Our Seat Defenders are a unique seat protection system that offers a fast, use-as-needed solution to protecting the vehicle's interior from dirt, spills, pets and more.

Likewise, our floor liners are a three-layer, custom-fit protection system that is scientifically proven to be quieter than competing floor liners. Perfectly molded for each individual vehicle, Aries floor liners are waterproof, slip-resistant, sound-dampening and thermostatic.

SEAT DEFENDERS

The Aries Seat Defender is an innovative, universal and use-as-needed seat protection system. It is not your run-of-the-mill seat cover. In fact, it can hardly be placed in the same category. Rather than being a permanent cover-up for a damaged or unsightly interior, the Aries Seat Defender works to stop the damage before it happens. It is easy to install, remove, clean and store, making it a ready defense against muddy clothes, shedding pets, wet swimsuits, messy food and more.

The Aries Seat Defender is made with a two-sided design. The bottom side is thermoplastic rubber (TPR) to grip the seat and offer a water-resistant and anti-skid surface for the user. The top side is made from 600-denier Terelene fabric to resist spills and to shed water for easy cleanup.

Aries Seat Defenders are available in four colors and come in two universal sizes for bucket and bench seats.

SEAT DEFENDER

Not even close to your average seat cover

- Use-as-needed, universal design
- Available for bucket or bench seating
- Fast and easy to install, clean and store
- 100% waterproof and machine washable
- Dual-layer, anti-skid protection
- Allows for side airbag deployment
- Perfect for outdoor enthusiasts, pet owners, construction workers, sports fans and more

As-needed protection

The fast, simple design allows it to be used as needed to stop damage instead of just covering it up

Dual-action defense

The bottom layer of thermoplastic rubber (TPR) grips the seat while the top layer of 600D Terelene fabric defends against spills, dirt, pet dander and more

Universal design

Both bucket and bench seat styles install easily and fit virtually any vehicle

3D FLOOR LINERS

Aries 3D floor liners are more than simple floor mats. They are a three-layered revolution in automotive interior. Each floor liner begins with a bottom layer of patented Maxpider fibers that grip the carpet with thousands of contact points. This provides added safety by preventing the floor liner from shifting and moving. The middle portion is made of layered XPE foam. This makes the liner waterproof, shock-absorbent and thermostatic. XPE is also sound-insulating, protecting the inside of the vehicle from external noise. The final layer is a surface layer of thermoplastic rubber (TPR). TPR is strong, durable and wear-resistant. It is also waterproof, adding a second layer of protection against spills.

When it comes to the interior of your customer's car, van, truck or SUV, protect it from the bottom up with Aries 3D floor liners. Our liners are available for most makes and models, and we offer full vehicle coverage for first, second and third row seating as well as the cargo area. Aries 3D floor liners are custom-molded to fit perfectly into your customer's vehicle, taking the place of the existing floor mats. We offer our floor liners in black, grey and beige and back them up with a three-year warranty.

FLOOR LINERS

Join the revolution

- Triple-layer construction for ultimate interior protection
- Laser-measured and custom-molded to perfectly fit your vehicle
- Industrial-strength materials molded for a refined appearance
- Slip-resistant Maxpider fibers increase safety
- Flexible, breathable rubber will not brittle over time
- Raised edges contain all liquids and debris
- Resistant to moisture, impact, engine noise and temperature loss
- Scientifically proven to reduce engine and road noise better than competitive floor liners
- Simple, instantaneous installation; no extra grip discs required
- Available for first row, second row and cargo area
- Complete vehicle kits available
- Three-year warranty
- [See application guide on page 8](#)

Available colors

Black

Grey

Beige

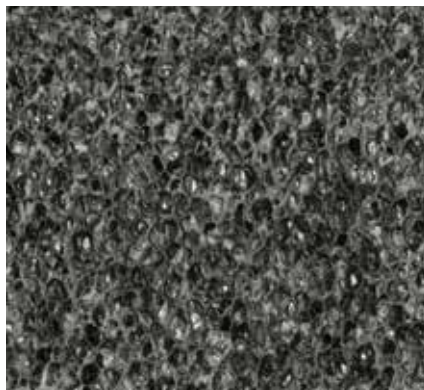

Thermoplastic rubber (TPR)

The top layer of thermoplastic rubber is strong, durable, wear-resistant and waterproof to stand up to scuffs, dings, spills, drips and more

Layered XPE foam

The middle layer of semi-rigid cross-linked polyethylene foam is waterproof, shock-absorbent, sound-insulating and thermostatic for a more comfortable ride

Maxpider fibers

Instead of having two point of contact, the bottom layer of patented Maxpider has thousands. The fibers grip all types of carpet, preventing shift and providing ultimate safety

FRONT-TO-BACK, CUSTOM VEHICLE COVERAGE

Aries floor liners are made to be vehicle-specific. Instead of providing your customers with a few universal floor mat options – none of which fit their vehicle quite right – we design each floor liner to have a unique shape to contour to the vehicle's floor. This offers a better fit,

increased safety and an instantaneous installation. And Aries floor liners are not just for the driver's seat. We offer floor liners for first-row, second-row and even third-row seating on applicable models, giving your customers full coverage for their vehicles.

JP00311509

Custom-molded for a perfect fit in the vehicle

JP00321509

Shock-absorbent foam for a more comfortable ride

JP00221502

PROTECTION FOR THE CARGO AREA

While protecting the passenger areas of your customer's vehicle is important, we know that the cargo area takes just as much of a beating, especially considering the hard work your customers put in every day. That is why when we say floor liners offer full vehicle coverage, we mean the entire floor of the vehicle is covered.

Aries cargo floor liners are the perfect accessory for outdoor enthusiasts, industrial workers, do-it-yourselfers and more. They offer the same superior protection as our other floor liners – being waterproof, wear-resistant, sound-insulating, thermostatic and shock-absorbent – and they are custom-molded to perfectly fit specific vehicles.
