FOREST GRIS  
60x60  
20mm

WHY 20MM? BECAUSE IT OFFERS MANY ADVANTAGES COMPARED TO OTHER NATURAL MATERIALS THAT HAVE TRADITIONALLY BEEN USED OUTDOORS.

- Does not absorb water, and is therefore much easier to clean.
- Resistant to chemicals and naturally-occurring problems such as mould.
- Greater durability and toughness, does not deteriorate over time,
- It has a uniform thickness and weighs less than other types of materials, making it more versatile and easier to install.
- Resistant to frost and materials such as salt used to combat this.
- May be used both for interiors and exteriors, creating visual continuity.
