

## SCENE 1: Tennis Court

In the world of tennis and instructional design, one name stands out for remarkable skill in hitting aces both on and off the court.

I'm Nicole Heroux, a tennis fanatic who knows how to ace the game.

On the tennis court, my serves are unstoppable. My precision, power, and dedication make me a force to be reckoned with.

## SCENE 2: Home office

But my talents extend far beyond the tennis court. Off the court, I'm an instructional designer extraordinaire.

Just like in tennis, my designs are precise, well-crafted, and always hit the mark.

My secret to success is simple: the same dedication and precision that make me a tennis ace also make me an ace in instructional design.

I specialize in creating interactive, attention-grabbing training courses from scratch. I am well versed in using tools well known throughout this industry such as Articulate storyline 360 and Rise 360. (articulate 360 & ADDIE pic) in addition to industry approved methods such as ADDIE and SAM (pics of each process visual).

Details are everything when it comes to bringing learning to life. You'll see the design process broken down in my design documents, storyboards, and the final learning courses I create. (show DD)

You can review my portfolio at [NicoleHeroux.com](http://NicoleHeroux.com) (show portfolio page). There are a variety of eLearning modules including design documents, storyboards, and scripts (show instructional design portfolio page), demonstrating my design process. You will also find more details about me, my skills, and how you can contact me directly.

Whether on the court or in the world of education, my passion and commitment shine through, leading to victories and accolades.

In my world, aces are not just a coincidence; they're a way of life.

Thank you for watching this video and learning more about me.
