Motorol stop leak

VERSION 1 - SEPTEMBRE 2009

www.mecotech-performances.com

DEFINITION

- Double Action:
 - Regenerates joints and rings seals.
 - Increases viscosity of oils under high temperature and strong shearing.
- Eliminates oil leaks and seepages, decreases the oil consumption and the emissions of blue smoke. Restores compression and improves the operation of the engine.
- Does not harm starting and cold lubrication and with no effect on hydraulic lifters operation

USAGE

- Adapted to all motor oils and all types of engines (gasoline or diesel)
- Run the engine up to reach the normal operation temperature, pour the bottle into motor oil and let the engine runs for 15 minutes.
- The complete result will be obtain after several hours of engine use.

CARACTERISTICS

- Color Amber
- Odor Oil
- Density at 20°C 0.89

SAFETY DATA

	SYMBOL
TOXICITY	None
FLAMMABILITY	None
ENVIRONNEMENT	None

PACKAGING

Bottle of 300 ml too treat 4 to 6 liter of engine oil.
Référence : MT021
