

# WS 30 - 5 W 30

High performance synthetic engine oil  
Anti-wear, anti-friction « WS » nanotechnology

VERSION 1 - MAY 2020

[WWW.MECATECH-PERFORMANCES.COM](http://WWW.MECATECH-PERFORMANCES.COM)

## DEFINITION

- New generation engine oil complying with the higher standards and manufacturer approvals.
- Nanotechnology of « WS » lubrication, exclusive of MECATECH, giving an extraordinary protection and lubrication.

## PROPERTIES

- Suitable and adapted for the lubrication of petrol engines or diesel engines with or without DPF.
- Allows a very good cold start.
- Protects against wear, reduces oil consumption, extends the time between oil changes.

## PERFORMANCES

- Approved ENI I-SINT 5W30 formula :
- ACEA A3/B4-04
- ACEA C3 (performance)
- BMW Longlife 04
- MB 229.51 and MB 223.2
- VW 504 00 + 507 00
- PORSCHE C30

TECHNICAL DATA

## CHARACTERISTICS

### SAE GRADE

### 5W/30

- Viscosity at 100° C    mm<sup>2</sup>/s            12
- Viscosity at 40° C     mm<sup>2</sup>/s            74
- Viscosity at -30° C    mPa.s            6100
- Viscosity index                                    161
- Flash point V.O.       °C                        210
- Pour point             °C                        -42
- Density at 15° C        kg/l                    0.850

## PACKAGING

- 1 and 5 litres cans.
- 30 and 200 litres barrels.
- REF : 204xxx
