

MARINE EQUIPMENT GREASE SPRAY

VERSION 1 - JANUARY 2020

WWW.MECATECH-PERFORMANCES.COM

DEFINITION

- ◆ Extreme pressure mineral grease, green colour, specifically additivated to ensure an outstanding resistance to water environment.
- ◆ Protects steels against corrosion. Protection of battery terminal clamps, gears, bearing, rollers, cables subjected to sprays of salt water or sea spray. Recommended on all equipment exposed to harsh weather and with operating temperatures between -10 and +100°C.

INTRODUCTION

- ◆ Very good extreme pressure and anti-seize properties.
- ◆ Very good mechanical stability, even under high load.
- ◆ Very good adhesion to metal, enabling a long-lasting anti-corrosion protection (wintry).
- ◆ Meets MARINE Standard STM 7420B.
- ◆ Its 360°valve allows a use in all positions

OPERATING INSTRUCTIONS

- ◆ Shake well before use.
- ◆ Spray on the parts to be lubricated. The solvent evaporates quickly to leave a greasy layer.

PHYSICO-CHEMICAL CHARACTERISTICS :

- ◆ **Aspect** Pasty
- ◆ **Colour** Green
- ◆ **Odour** Light
- ◆ **Density** 700 kg/m³
- ◆ **Flash point** <0°C
- ◆ **Dropping point** 190°C

SAFETY DATA :

- ◆ Consult the SDS of the products available on our website www.mecatech-performances.com. Professional use.

PACKAGING

- ◆ Packaging : 650 / 400 ml spray can
- ◆ Reference : 481012
