Cabin purifying treatment - Button Spraying

Effective against coronavirus*/Bactericidal/Antifungal -

Fragrance « Fresh Air »

WWW.MECATECH-PERFORMANCES.COM

DATA

DEFINITION

- **Eliminates bacteria, molds and coronavirus* that may leads to contaminations and allergic reactions.**
- Complete and quick « rapid » treatment for the cabin and air-conditioning system with micro-diffusion of actives principes.
- Disinfects and destroys contaminations and bad smell sources and leaves a pleasant fragrance in the car.
- Suitable for all kind of vehicles cabin's: cars, ambulances, trucks, buses, coaches, camping-cars, trailers, Farming and and construction Equipment vehicles, boats...
- Used in addition to the cleaning and disinfecting TCCLim treatment for a complete decontamination of the cockpit see **MECATECH TECHNICAL BULLETIN DT18 « MECATECH protocols for Vehicles Decontamination »**

OPERATING INSTRUCTIONS (see video tutorial)

- A 250 mL spray can allows treatment of 4 vehicles.
- Ideally, cleaning and disinfection of the main contact surfaces with TCCLim (refillable sprayer and microfiber cloth) during 10 to 15 min
- Start the engine and run the air-conditioning on cold and recirculation mode with the fan set to maximum.
 - To optimize the disinfection of the cockpit : DO NOT turn the air-conditioning on (AC off)
 - To optimize the disinfection of the air-conditioning system (usual operating procedure of the TPH) : DO TURN the air-conditioning on (AC on) to optimize the condensation and so the disinfection of the evaporator)

- The operation occurs door open, on the passenger side and outside of the vehicle
- Shake the TPH spray can, spray the product under the front air intake during 10 seconds, close the passenger door,
- Open the rear door, spray the product in the cockpit during 10 seconds and repeat the operation in the front of the cockpit (a total of 30 seconds of spraying)
- Close the doors. Wait for another 10 minutes before opening and aerating the car to optimize the disinfection of all the cabin
- This treatment is recommended every time a decontamination of the cabin is required.

MICROBIOLOGICAL AND PHYSICOCHEMICAL PROPERTIES

- **Antibacterial activity tested accordingly to standards EN1040 and EN1276 (Eurofins laboratory reports # 25005-57879, 01/08/2012, and #30597-58465, 06/08/2013)**
- **Antifungal activity tested accordingly to standards EN1275, EN1650 and EN137697 (Eurofins laboratory reports #25722-69144, 03/10/2012, #30597-58466, 06/08/2013, and #30597-58467, 06/08/2013)**
- ***Effective against coronavirus accordingly to standard EN14476+A2 (Texcell laboratory report 1111/01/EN14476-91/01, 15/05/2020)**

- **Colour** colourless
- **Odour** Fresh Air (MT051)/New leather (MT052)
- **Density at 20°C** 0.85

SAFETY DATA

Consult the SDS of the products available on our website www.mecatech-performances.com. Professional use.

PACKAGING

- 405 / 250 ml spray can
