

CLEAN FAP - PL

Regenerating cleaner DPF

High performances BI-CATALYST Formula

VERSION 2 - MARCG 2022

WWW.MECATECH-PERFORMANCES.COM

PROPERTIES

- ◆ Catalyses the combustion of the soot particles.
- ◆ Lowers the operating temperature of the DPF (Diesel Particles Filter).
- ◆ New detergency and stabilization formula, the technology is improved and more efficient, especially with gasoils with a high Biodiesel content (B30/ B100, etc.).
- ◆ Cleans the system of injection, system of admission, the DPF and the catalysts.

RESULTS

- ◆ Restores a correct operation of the DPF.
- ◆ Restores normal fuel consumption and correct engine performances.
- ◆ Avoids the clogging of the DPF and the catalysts, and the resulting dysfunctions (power loss, consumption).
- ◆ Extends the DPF and the catalysts life cycle.

INSTRUCTIONS FOR USE

- ◆ Pour the dose into the tank before refuelling.
- ◆ Treatment recommended once a year or every 50000 km or every 1000 Hours.
- ◆ **Professional tip:** In case of clogging, for an optimal cleaning, treat the vehicle tank. Roll normally until use of half of the tank and then start a forced regeneration of DPF.

COMPATIBILITY

- ◆ Compatible with all Diesel Particles Filter (DPF), whether catalyzed or not, and all catalyst systems of exhaust gas after-treatment for Diesel motors.

- ◆ Recommended for all recent Diesel vehicles (EURO 4, EURO 5 and EURO 6 standards) and engines VI (agri / TP) in the standards TIER 3 and TIER 4.

SAFETY DATA

- ◆ Consult the SDS of the products available on our website www.mecattech-performances.com.

PACKAGING

- ◆ Packaging: a dose of 5 L for 350 to 700L diesel
- ◆ Reference: MT518
