

TC1 DIESEL

Diesel Preventive treatment

VERSION 2 - MARCH 2022

WWW.MECATECH-PERFORMANCES.COM

DEFINITION

- ◆ New detergency and stabilization formula, the technology is improved and more efficient, especially with gasoils with a high Biodiesel content (B30/ B100, etc.).
- ◆ Cleans and protects the fuel injection system.
- ◆ Cleans injection pump, injectors, combustion chambers, valves and intake circuit (EGR valve)
- ◆ Avoid the contaminations by water and inhibits the development of bacteria in the fuel.
- ◆ Makes the engine run quieter and smoother. Increases mileage by 3 to 5%.
- ◆ Decreases the pollution emissions by more than 30% (opacimetry test).

USAGE

- ◆ Pour the bottle in the tank before filling-up.
- ◆ Compatible with all kind of injection systems (Common rail, pump injectors ...) and will not harm the catalytic exhaust systems.
- ◆ To use every 5000 km for an optimum protection.

SAFETY DATA

- ◆ Consult the SDSs of the products available on our site www.mecatech-performances.com. Professional use.

PACKAGING

- ◆ Packaging: bottle of 200 ml to treat 50 to 70L of Diesel Fuel.
