Stop leaks radiator

VERSION 1 - OCTOBRE 2009

WWW.MECATECH-PERFORMANCES.COM

DEFINITION

- ◆ Clog quickly and durably the leaks and seepages of the coolant circuits.
- ◆ Protect from the risks of breakdowns due to a lack of liquid of cooling.
- ◆ Treat the actual leaks and protects during several months (can be used in prevention).

HOW TO USE

- ◆ Shake well before using.
- ◆ Compatible with all vehicles and all cooling liquids: regular, organic (D type), universal.
- ◆ To be preferably used in an operating temperature engine coolant for optimal performances.
- ◆ Pour the dose in the coolant circuit and leave the engine idling several minutes – immediate effect.

PHYSICOCHEMICAL PROPERTIES

- ◆ **Colour** brown
- ◆ **Odour** strong, typical smell
- ◆ **Density at 20°C** 1.03

SAFETY DATA

	SYMBOL
TOXICITY	None
FLAMMABILITY	None
ENVIRONNEMENT	None

PACKAGING

- ◆ Packaging: 1 dose of 1L for 50 L capacity.
