

FICHE TECHNIQUE

NCH - PL

Oil circuit cleaner

Prior oil change

www.mecotech-performances.com

PROPERTIES

- ◆ Double Action:
 - Dissolves and disperses dirt and deposit in the motor housing. Cleans pumps, inlet filters, piston rings, bearings...
 - Neutralizes acidic combustion residues and protects from corrosion.
- ◆ Restores optimum condition of all the oil system.
- ◆ Compatible with all types of engine (gasoline and diesel) and all types of oil (mineral and synthetic).
- ◆ Protects engine from abnormal wear or seizure risks.
- ◆ Avoids the fast contamination of new oil.

HOW TO USE

- ◆ Let the engine run until it reaches the normal operating temperature. Pour the dose in the oil and let sit for 15 minutes. Change the oil and the oil filter imperatively.

PHYSICOCHEMICAL PROPERTIES

- ◆ **Colour** Amber
- ◆ **Odour** Strong, typical
- ◆ **Density at 20°C** 0.925

SAFETY DATA

	SYMBOL
TOXICITY	None
FLAMMABILITY	None
ENVIRONMENT	None

PACKAGING

- ◆ Packaging: dose of 2L for 20 to 30 L of oil. ◆
Ref. MT524
