As a Company, we believe that the purpose of any business transformation is a means to an end. It should result in stronger growth momentum, superior customer experience, better cross sell, lower risk and/or improved operating efficiencies. We are pursuing business transformation singularly with that objective...

At the outset, “All business transformation takes time, team and technology.” It’s been 15 months since we started phase 1 of business transformation project. Due to wave 2, it got delayed by 3 months. Phase 1 of the digital platform has now gone live with a staggered release methodology. The Company plans to transition all consumers to the new digital platform from February onwards. Next 2 slides cover details of the new digital platform and the way forward...
