- Offering loans for business expansion or home loans to the same customer segment
- Similarity in profiles enables efficient and faster underwriting.
- Personal Discussion based Touch and Feel Model, rely on customized assessments which can not be replicated by digital lending.

2 Retail focussed Model

- Small ticket size retail focussed lending across MSME, housing and construction finance.
- Strong focus on asset quality and onboarding only quality portfolio.

3 Own sourcing Model; no dependence on DSAs

- 100% sourcing is done by regularly trained in-house Direct Sales Team (DSTs) or Feet on Street (FOS) staff; also generates cross sell opportunities for insurance.
- DSAs prone to influence customers to Balance Transfer with other lenders in pursuit of repeat commission; In Direct Sourcing model of the company, this is eliminated.

4 Multi Layered Credit Approach

- Customized underwriting approach basis the customer's profile; Credit team personally spends time with customer to understand business dynamics and derive cashflows.
- In house Legal, Technical and Fraud Control Units as well as empaneled vendors for conducting due diligence and eliminate fraud risks.

5 In House Collection model

- Own Collection team of 105 people to ensure full focus on delinquent accounts.
- Separate Litigation division under its Legal vertical which handles the recovery efforts from legal side.
- Given that all the loans are secured, in distress cases the Collection team facilitates sale of property as well for recovery.

- Banks face issues in financing MSMEs due to high NPAs, high processing times, higher cost and capital challenges
- Low servicing cost for NBFC's; better penetration than banks as NBFC's outreach is higher.
- NBFCs offer higher loan eligibility with shorter turnaround times.
