Focus on strengthening business fundamentals on an annualised basis

GAUM sees strong constant currency sales growth and EBITDA margin expansion

- GAUM sales growth of 14% in constant currency terms; performance in INR terms was impacted by the devaluation of Naira
- FMCG categories continue to grow in double-digits
- EBITDA* margin at 11.4%, up 250 bps year-on-year led by gross margin expansion and mix improvement

*EBITDA (incl. Forex)

Reorganising in Africa on track

Simplifying Hair Fashion operations to a Royalty model in select markets (largely in East Africa)

Multiple actions underway; target closure is expected between Q4FY24 to Q1FY25

Expect profitability to improve in the medium term; PAT to move from ~₹0 to ~₹50 crore (excluding one-time cash and non-cash costs)

Latin America and SAARC businesses impacted by significant Argentine Peso devaluation

- LATAM business revenue has been severely impacted on account of the sharp devaluation in Argentine Peso, which has impacted nine months of revenue (due to hyper-inflation accounting).
- This has resulted in negative mid-single digit impact on consolidated revenue but minimal impact on operating profit.
- The actions taken by the Argentinian Government are progressive as they will aid economic growth in the long run, thereby further improving consumption.
