1. The Covid 19 pandemic and consequent lockdown earlier this year impacted a whole range of economic activities adversely. The phase wise opening up initiated in the quarter ended June 30, 2020 has led to a recovery in varied measures across different sectors of the economy, industries and businesses. This recovery seems to have strengthened over the quarter ended September 30, 2020 driven by incremental easing of restrictions.

It is expected that economic activity will continue to improve as the residual restrictions are eased. However, the situation will have to be closely monitored since the easing of restrictions will depend on how effectively the spread of the Pandemic is controlled.

The Company has assessed the impact of the pandemic on its operations and its assets including the value of its investments and trade receivables as at September 30, 2020. The management does not, at this juncture, believe that the impact on the value of the Company's assets is likely to be material. However, since the revenue of the Company is ultimately dependent on the value of the Assets Under Management (AUM) it manages, changes in market conditions and the trend of flows into mutual funds may have an impact on the operations of the Company. Since the situation is still evolving and it seems likely that there will be a material impact on the economy, its effect on the operations of the Company may be different from that estimated as at the date of approval of these financial results. The Company continues to closely monitor material changes in markets and future economic conditions.

Further, during the quarter ended September 30, 2020, there has been no material change in the controls or processes followed in the preparation of the financial results.

2. The Company holds certain Non Convertible Debentures (NCDs) that are secured by a pledge of listed equity shares. These NCDs are classified as financial assets at fair value through profit and loss. Hence, any changes in their fair value on the reporting date is reflected as a part of 'Other Income'.

On fair valuation of the said NCDs as at September 30, 2020, the unrealized gain recognized in the results for the half year ended September 30, 2020 stands at ₹649.21 mm which includes ₹91.21 mm for the quarter ended June 30, 2020. The carrying value of these NCDs as at September 30, 2020 was ₹943.43 mm. The value of the collateral as at September 30, 2020 is ₹1,347.75 mm.

FINANCIAL HIGHLIGHTS FOR THE QUARTER ENDED SEPTEMBER 30, 2020

Our financial performance in the first quarter had shown a worsening trend due to the effects of the Covid-19 on the markets. While there continues to be uncertainty regarding how the Covid-19 pandemic will ultimately pan out, markets have stabilised and our financial performance this quarter has shown an improvement. This is evident from sequential improvement in our profit parameters and even in our operating margin which has gone up from 34 bps in the quarter ended June 30, 2020 to 37 bps in the quarter ended September 30, 2020.

While we usually compare numbers with similar quarters of the previous year, given the Covid -19 re-set, we believe that sequential comparisons are also equally pertinent and hence have provided both.

- The Operating Profit of the company for the quarter ended September 30, 2020 was ₹3,491 million. While this is 7% lower than the operating profit of ₹3,765 million for the quarter ended September 30, 2019, it is 16% higher than the operating profit of ₹3,006 million for the quarter ended June 30, 2020 which is the trailing quarter.
- Profit before tax for the quarter ended September 30, 2020 was ₹4,628 million. While this is up by 8% than the Profit before tax of ₹4,275 million for the quarter ended September 30, 2019, it is 22% higher than the Profit before tax of ₹3,804 million for the quarter ended June 30, 2020 which is the trailing quarter.
- Profit after tax for the quarter ended September 30, 2020 was ₹3,379 million. While this is 8% lower than the Profit after tax of ₹3,683 million for the quarter ended September 30, 2019, it is 12% higher than the Profit after tax of ₹3,024 million for the quarter ended June 30, 2020 which is the trailing quarter.

Due to change in taxation rates in the quarter ended September 30, 2019, an approximate tax benefit of ₹343 million pertaining to the quarter ended June 30, 2019 was factored in the subsequent quarter. Accordingly, the normalised Profit after tax for the quarter ended September 30, 2019 was ₹3,340 million as compared to ₹3,379 million for the quarter ended September 30, 2020. This results in an increase of 1%.

FINANCIAL HIGHLIGHTS FOR THE HALF YEAR ENDED SEPTEMBER 30, 2020

- The Operating Profit for the half year ended September 30, 2020 was ₹6,497 million as compared to ₹7,580 million for the half year ended September 30, 2019. This is a decrease of 14%.
- Profit before tax for the half year ended September 30, 2020 was ₹8,432 million as compared to ₹8,574 million for the half year ended September 30, 2019 which resulted in a decrease of 2%.
- Profit after tax for the half year ended September 30, 2020 was down by 3% to ₹6,403 million as compared to ₹6,600 million for the half year ended September 30, 2019
