Management Commentary

Commenting on the results announcement, (Hony) Brig. Dr. Arvind Lal, Executive Chairman

“India is making sustained progress against the pandemic, through accelerated pace of vaccinations and augmented patient care infrastructure. As a vanguard to accurate prognosis, brands like Dr. Lal PathLabs are playing chief role in management of the pandemic. Leveraging its dedicated network driven infrastructure and tech-enabled processes, we have been able to seamlessly navigate through these disruptions, and fortify our operating model in diagnostics.”

Commenting on the results announcement, Dr. Om Manchanda, Managing Director

“First quarter of FY2022 was a disruptive phase for businesses owing to sharp resurgence of the second wave. Our teams worked relentlessly to meet rising patient demand, while we offered all possible assistance to our employees and their families. In addition to the gold standard RT PCR and antibody tests employed for confirmatory diagnosis, we witnessed upsurge in Covid allied tests. Momentum in non-Covid testing continued, barring a few hotspot areas which registered high caseloads. Overall, we see a strong role for experienced and established chains like ours to take part in the evolution of the Indian healthcare services.”

Commenting on the results announcement, Bharath Uppiliappan, Chief Executive Officer

“With persistent focus on service parameters and timely turnarounds, Dr. Lal PathLabs was able to accommodate volume surge during the pandemic. Focus was to provide incessant support to all our customers, and our employees made every effort to maintain high service standards. As the commissioning of our new RRLs draws near, we are seeking an enhanced flow of samples from the West and South regions. Our leadership through introduction of next-gen testing and solutions for life-cycle management of select diseases are strengthening our overall brand play, as envisaged.”
