Safe Harbor Statement

Materials and information provided during this presentation may contain ‘forward-looking statements’. These statements are based on current expectations, forecasts and assumptions that are subject to risks and uncertainties which could cause actual outcomes and results to differ materially from these statements.

Risks and uncertainties include general industry and market conditions, and general domestic and international economic conditions such as interest rate and currency exchange fluctuations. Risks and uncertainties particularly apply with respect to product-related forward-looking statements. Product risks and uncertainties include, but are not limited to, technological advances and patents obtained by competitors. Challenges inherent in new product development, including completion of clinical trials; claims and concerns about product safety and efficacy; obtaining regulatory approvals; domestic and foreign healthcare reforms; trends toward managed care and healthcare cost containment; and governmental laws and regulations affecting domestic and foreign operations.

Also, for products that are approved, there are manufacturing and marketing risks and uncertainties, which include, but are not limited to, inability to build production capacity to meet demand, unavailability of raw materials, and failure to gain market acceptance.

You are cautioned not to place undue reliance on these forward-looking statements, which reflect our opinions only as of the date of this presentation.

The Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events, or otherwise.

Strategic Vision: Building a Well-Diversified Pharma Business

Sustain and Grow our Strong Foundation

Amongst the Top 10 generic companies in the World

- Continue filing 18-20 high value generics in the US, each year
- Become a Top 3 player in India
- Self sustenance in other EM's
- Deliver operational efficiencies

Evolve our Portfolio with a Complex Generics Focus

Investing heavily in developing high barrier products

- Execute on our Inhalation portfolio
- Continue developing our Biosimilar portfolio
- Build our Generic Injectables franchise

Build our Specialty Business and Novel products

Committed to building a strong specialty business

- Strengthen our Women's Health business in the US
- Efficiently commercialize NaMuscla in Europe
- Monetize our NCE portfolio

Investing in our Quality Culture

CY2019 Highlights and Recent Performance

- Launched NaMuscla™ (Orphan drug) in EU
- Exclusive FTF launch of gRanexa (Ranolazine) in Feb'19
- Levothyroxine approval and launch
- Biosimilar Etanercept approved and launched in Japan
- Advanced Inhalation pipeline by filing gBrovana (US) and gFostair (EU)
- India branded business continued to outpace Indian Pharmaceutical Market (IPM) through leadership in top TAs (Diabetes, Respiratory, Cardio)
- Launched our Global Quality initiative
- MEK Inhibitor licensed to Boehringer Ingelheim, our 2nd NCE licensing deal
- Levothyroxine AB rating received for 2 remaining RLD's
- Divested Japan Generics businesses (Kyowa and Kyowa CritiCare)

H1 FY2020 Sales¹
(US\$ mn, YoY Growth)

- *Top-down Global Corporate Quality Governance*
- *Investing in our Processes, Systems, and People*
- *Integrating quality thinking throughout the process from Product Development through Manufacturing*
- *Launched Global Quality Transformation Program*

***Prioritizing patient safety with a Quality First mindset
from R&D through Manufacturing***

US Generics Business Overview

Consolidating our position in the US¹

US Generics Portfolio

32%

Avg. market share
(marketed products)

171

Products marketed
(cumulative)

153

Filings pending approval
(cumulative)

Robust base business

- Top 25 products continue to drive the base business with strong market share and low single digit erosion
- Strategic supply chain capability has enabled leadership position for the Top 25 products

Focus on Key launches and Growth drivers

- 15+ Launches expected to drive revenue growth this year
- Maximizing uptake for Levothyroxine following recent AB-rating approvals for 2nd RLD (Unithroid) and 3rd RLD (Levoxyl)
- Working closely with FDA on Albuterol and expect FY '21 launch

Entry into New Channels

- Build presence in hospital / institutional channel
- Focus on high-barrier injectables and biosimilars
- Internalizing manufacturing capabilities (PFS, Lyophilization) to ensure production quality
- Accelerating BD efforts to augment injectables pipeline

Gained significant share with consistent outperformance...

Lupin rank in IPM ¹

Leadership across cardiac, diabetes, and respiratory TA's
