Speaking on the occasion, **Ashish Kehair, MD & CEO of Nuvama Group**, expressed, "It has been a challenging time globally these past 6 to 9 months - The fallout of Silicon Valley bank, followed by rising bond yields owing to fiscal deficit concerns in the US and persistent weakness in China's economic recovery. These have had an adverse impact on global asset markets and economic activity. There has been some rub-off on India as well with weakness in exports, however our domestic economy stands resilient with liquidity being benign. With a strong capex push by the government and strong corporate balance sheets there is a resultant improvement in the investment climate. With growth momentum firmly in favour of India and both vectors 'Financial Wealth' and 'Penetration' doubling in the next 5-6 years we expect to see robust growth in organised wealth management.

Our unique wealth management platform helped us leverage these domestic tailwinds and Nuvama saw a robust client activity across all our businesses. Our revenues and operating PAT for H1FY24, grew by 24% YoY and 63% YoY respectively. Our client assets in Wealth Management have surged over ₹2,17,000 Cr, growing by 21% YoY. Our AUM for Asset Management has reached ₹6,175 Cr, growing by 43% YoY. We have adapted to shifting economic landscapes and delivered value to our clients leading to this good run. We also achieved an important milestone in the quarter gone by. The company got listed on the stock exchanges in India on 26th September 2023.

Looking ahead, Nuvama is well-positioned to seize growth opportunities within the Indian economy, particularly in the domain of wealth and asset management and expand our presence across the nation. We also plan to double the number of relationship managers in the next five years. We also plan to build a full stack offshore capability to serve the domestic clients for their offshore needs and the NRI diaspora. In addition, our Asset Management division will persist in building a full suite of alternatives, scale public market strategies and enhance distribution capabilities by leveraging Nuvama and expanding in domestic and international markets".
